Independent Auditors' Report

The Board of Directors and Shareholders
Trade and Development Bank of Mongolia LLC:

We have audited the accompanying consolidated financial statements of Trade and Development Bank of Mongolia (the "Bank") and its subsidiaries (together the "Group"), which comprise the consolidated statements of financial position as at 31 December 2015 and 2014, the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards as modified by Bank of Mongolia guidelines and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2015 and 2014, and of its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards as modified by Bank of Mongolia guidelines.

Other Matter

This report is made solely to the members of the Group, as a body, those in connection with the potential offering of US\$ notes by the Group, and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

1 Organisation and business

Trade and Development Bank of Mongolia LLC (the "Bank"), the controlling company, and its subsidiaries included in consolidation (together the "Group") are summarised as follows:

Controlling company

The Bank is a Mongolian domiciled limited liability company, incorporated in accordance with the Company Law of Mongolia. The Bank was given special permission to conduct banking activities by Decree No.3/149 issued by the President of the Bank of Mongolia ("BOM") on 29 May 1993 in accordance with the Banking Law of Mongolia, and License No.8 was renewed by BOM on 27 February 2002.

Pursuant to the aforementioned resolutions, license and charter, the Bank conducts banking activities such as cash savings, lending, handling and settlements of cash transfers, foreign currency transactions and other banking activities through its 22 branches and 28 settlement centers.

Subsidiaries included in consolidation

(i) *TDB Capital LLC*

The Bank established TDB Capital LLC ("TDBC"), a wholly owned subsidiary, on 14 August 2008. TDBC is a Mongolian domiciled limited liability company incorporated in accordance with the Company Law of Mongolia and may be engaged in financial services activities within the parameters set forth in the Company Law, Civil Law and Law of Security Market of Mongolia and other relevant laws and regulations and those activities include, but are not limited to, brokerage and underwriting services to various customers.

(ii) *TDB Media LLC and its subsidiaries*

TDB Media LLC ("TDBM") was established in 2011. The Bank has been cooperating with Bloomberg L.P. to broadcast international financial news through TDBM, which is a media company licensed by the Mongolia Telecommunication Regulatory Commission to operate the Times Media Corporation in Ulaanbaatar since 2011. The Group additionally invested in TDBM on 19 November 2013 and the Group hold approximately 84.4% of TDBM as at 31 December 2015. TDBM owns 100% of the Times Media Corporation and 70% of Grand Step LLC which carries out publication of magazines as at 31 December 2015.

The direct parent company of the Group is Globull Investment and Development SCA ("Globull"), which owns a 65.83% interest in the Group and is incorporated in Luxembourg. Globull is wholly owned by US Global Investment LLC ("US Global"), which is incorporated in the United States of America. US Global is a consortium owned by Central Asia Mining LLC and Mr. Erdenebileg Doljin (the current Chairman of the Group), and it had directly owned approximately 7.31% of the Group. Consequently, US Global's ownership in the Group directly and indirectly through Globull amounted to approximately 73.14% as at 31 December 2015. Goldman Sachs owns 157,862 shares (or 4.78% interest) and United Banking Corporation LLC, which is a related party of the Group per IAS 24 Related Party Disclosures owns 659,462 shares (or 19.95% interest).

The Group sold the Bank's treasury shares (126,015 shares or 3.81% interest) to the United Banking Corporation, and the United Banking Corporation additionally acquired 189,344 shares from various individuals during the year ended 31 December 2015. Approximately 2.13% of the Group's total outstanding ordinary shares are owned by various individuals as at 31 December 2015.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

1 Organisation and business (continued)

Condensed financial statements of subsidiaries as at 31 December 2015 and 2014, and for the years ended 31 December 2015 and 2014 were as follows:

Subsidiaries	2015 MNT'000		2014 MNT'000	
	Asset	Liability	Asset	Liability
TDB Capital	32,208,496	44,162	23,484,757	265,524
TDB Media	14,397,058	1,732,424	12,127,687	1,788,581

Subsidiaries	2015 MNT'000		2014 MNT'000	
	Operating revenue	Net income	Operating revenue	Net Income
TDB Capital	1,825,636	945,101	1,557,399	1,190,097
TDB Media	3,727,957	819,426	3,098,734	212,703

2 Basis of preparation

Statement of compliance

The accompanying financial statements are consolidated financial statements that have been prepared in accordance with International Financial Reporting Standards ("IFRS") as modified by the BOM guidelines.

The major items modified by the BOM guidelines that are not in compliance with IFRS include the following, and the details are included in the corresponding notes:

- Allowance for loan loss reserves, receivables, letters of credit, unused credit commitments and foreclosed properties
- Accounting for deferred tax

The consolidated financial statements were authorised for issue by the Board of Directors on 28 March, 2016.

Basis of measurement

The consolidated financial statements are prepared on the historical cost basis except for the following:

- Derivative financial instruments that are measured at fair value
- Available-for-sale financial assets that are measured at fair value
- Certain property and equipment that are measured at fair value subsequent to acquisition
- Investment property that is measured at fair value
- Precious metal that is measured at fair value

Functional and presentation currency

These consolidated financial statements are presented in Mongolian Togrog ("MNT"), rounded to the nearest thousand. MNT is the Group's functional currency.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

2 Basis of preparation (continued)

Use of estimates and judgments

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Significant areas of estimation uncertainty and critical judgments of the Group in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are allowance for loan losses, valuation of financial instruments, and valuation of property and equipment and investment property.

Changes in accounting policies

Except for the following new standards and amendments to existing standards, the Group applies its accounting policies consistently which were used for preparing its annual consolidated financial statements as at and for the year ended 31 December 2014. The following changes in accounting policies are reflected in the Group's consolidated financial statements as at and for the year ending 31 December 2015.

(i) *Amendments to IAS 19 Employee Benefits*

The amendments clarify that if employees or third parties make contributions meeting certain criteria, an entity is permitted to recognize such contributions as a reduction in the service cost in the period in which the service is rendered. The amendments require an entity to consider contributions linked to service when accounting for service cost and defined benefit plans. Where the contributions are linked to service, they should be attributed to periods of service on the calculation method of its plans or straight-line basis. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

(ii) *Amendments to IFRS 8 Operating Segments*

The amendments clarify that an entity must disclose the judgements made by management in applying the aggregation criteria. The reconciliation of segment assets to total assets is only required to be disclosed if the assets are reported to the chief operating decision maker. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

2 Basis of preparation (continued)

Changes in accounting policies (continued)

(iii) Amendments to IFRS 13 Fair Value Measurements

The amendments clarify that short-term receivable and payable which do not have specified interest rate can be measured at original price of the invoice if the discount effect is not material. In addition, the portfolio exception can be applied not only to financial assets and financial liabilities, but also to other contracts within the scope of IAS 39. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

(iv) Amendments to IAS 16 Property, Plant and Equipment, and IAS 38 Intangible Assets

The amendments clarify that the accumulated depreciation or amortization on revaluation date is the difference between the gross and net carrying amounts of the asset. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

(v) Amendments to IAS 24 Related Party Disclosures

The amendments clarify that an entity or members of an entity which provide key management personnel services to the reporting entity or the parent of the reporting entity are related parties subject to the related party disclosures. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

(vi) Amendments to IFRS 3 Business Combinations

The amendments clarify that joint arrangements, not joint ventures, are outside the scope of IFRS 3. In addition, contingent consideration arrangements which are financial instruments should be classified as liabilities (or equities). All contingent consideration arrangements classified as assets (or liabilities) arising from a business combination should be subsequently measured at fair value through profit or loss. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

2 Basis of preparation (continued)

Changes in accounting policies (continued)

(vii) Amendments to IAS 40 Investment Property

The amendments clarify that if an entity acquires the property with ancillary services, it should treat that transaction as business combination. In addition, IFRS 3 is used to determine if the transaction is the purchase of an asset or business combination. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

3 Significant accounting policies

The accounting policies set out below have been consistently applied by the Group and are consistent with those used in previous years other than new accounting policies adopted by the Group in the current year.(see note 2)

Basis of consolidation

(i) Subsidiaries

Subsidiaries are investees controlled by the Group. The Group controls an investee when it is exposed to, or has rights to, variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

(ii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

(iii) Intra-group transactions eliminated on consolidation

Intra-group balances, transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Intra-group losses are recognised as expense if intra-group losses indicate an impairment that requires recognition in the consolidated financial statements.

3 Significant accounting policies (continued)

Basis of consolidation (continued)

(iv) Non-controlling interests

Non-controlling interests in a subsidiary are accounted for separately from the parent's ownership interests in a subsidiary. Each component of net profit or loss and other comprehensive income is attributed to the owners of the parent and non-controlling interests holders, even when the allocation reduces the non-controlling interests balance below zero.

Business combination

(i) Business combination

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control.

Each identifiable asset and liability is measured at its acquisition-date fair value.

As at the acquisition date, non-controlling interests in the acquiree are measured as the non-controlling interests' proportionate share of the acquiree's identifiable net assets.

The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the acquirer, the liabilities incurred by the acquirer to former owners of the acquiree and the equity interests issued by the acquirer.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

(ii) Goodwill

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, bargain purchase gain is recognised immediately in profit or loss.

When the Group additionally acquires non-controlling interest, the Group does not recognise goodwill since the transaction is regarded as equity transaction.

3 Significant accounting policies (continued)

Investment in associates and joint ventures

Associates are entities in which the Group has significant influence, but not control, over the financial and operating policies. Significant influence is presumed to exist when the Group holds between 20% and 50% of the voting power of another entity.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The investment in an associate and a joint venture is initially recognised at cost, and the carrying amount is increased or decreased to recognise the Group's share of the profit or loss and changes in equity of the associate and the joint venture after the date of acquisition. Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Intra-group losses are recognised as expense if intra-group losses indicate an impairment that requires recognition in the consolidated financial statements.

If an associate or a joint venture uses accounting policies different from those of the Group for like transactions and events in similar circumstances, appropriate adjustments are made to its financial statements in applying the equity method.

When the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest, including any long-term investments, is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has to make payments on behalf of the investee for further losses.

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated to the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items that are measured based on historical cost in a foreign currency are not translated.

However, foreign currency differences arising from the translation of available-for-sale equity investment (except on impairment, in which case foreign currency differences that have been recognised in OCI are reclassified to profit or loss), are recognised in OCI.

3 Significant accounting policies (continued)

Financial instruments

(i) Classification

Financial assets and financial liabilities held for trading include debt securities, equity securities and securities acquired and held by the Group for short-term trading purposes. Changes in fair value are recognised in profit or loss.

Derivatives recorded at fair value through profit or loss include certain derivative contracts that are not designated as effective hedging instruments. All trading derivatives in a net receivable position (positive fair value), as well as options purchased, are reported as trading assets. All trading derivatives in a net payable position (negative fair value), as well as options written, are reported as trading liabilities.

Financial assets or financial liabilities at fair value through profit or loss include those financial assets and financial liabilities designated at initial recognition because 1) such designation eliminates or significantly reduces an accounting mismatch; 2) respective financial assets and financial liabilities are part of a group of financial assets, liabilities or both and their performance is evaluated on a fair value basis in accordance with a documented risk management or investment strategy; or 3) the embedded derivative does not meet the separation criteria. Financial assets and financial liabilities at fair value through profit or loss are recorded at fair value and changes in fair value are recorded in the current operations.

Originated loans and receivables are loans and receivables created by the Group providing money to a debtor other than those created with the intention of short-term trading. Originated loans and receivables comprise loans and advances to customers and are reported net of an allowances to reflect the estimated recoverable amounts. The allowance is estimated in accordance with the Regulations on Asset Classification and Provisioning, jointly approved by the President of BOM and the Ministry of Finance.(BOM Provisioning Guidelines)

Held-to-maturity assets are non-derivative assets with fixed or determinable payments and fixed maturity that the Group has the intent and ability to hold to maturity, and are not designated at fair value through profit or loss or as available-for-sale. This includes certain investment securities held by the Group.

Available-for-sale assets are non-derivative assets that are designated as available-for-sale or are not classified as another category of financial assets.

3 Significant accounting policies (continued)

Financial instruments (continued)

(ii) *Initial recognition*

A financial asset or financial liability is measured initially at fair value plus transaction costs that are directly attributable to its acquisition or issue if the financial assets are not subsequently accounted for at fair value through profit or loss. For financial assets at FVTPL, directly attributable transaction costs are recognised in profit or loss as incurred.

(iii) *Subsequent measurement*

Subsequent to initial recognition, all financial assets and liabilities held for trading, derivatives recorded at fair value through profit or loss, financial assets and liabilities at fair value through profit or loss and available-for-sale assets are measured at fair value, except that any instrument that does not have a quoted market price in an active market and whose fair value cannot be reliably measured is carried at cost, including transaction costs, less impairment losses. Gains and losses arising from changes in the fair value of trading instruments and available-for-sale assets are recognised in profit or loss and directly in equity, respectively.

All non-trading financial liabilities, originated loans and receivables, and held-to-maturity assets are measured at amortised cost less impairment losses where applicable. Amortised cost is calculated on the effective interest rate method. Premiums and discounts, including initial transaction costs, are included in the carrying amount of the related instrument and amortised based on the effective interest rate of the instrument.

Derecognition of financial assets and liabilities

(i) *Financial assets*

The Group derecognises a financial assets when the contractual rights to the cash flows from the financial asset expire, or the Group has either transferred the contractual right to receive the cash flows from that asset, or has assumed an obligation to pay those cash flows to one or more recipients, subject to certain criteria, or if it transfers substantially all the risks and rewards of ownership.

The Group enters into transactions in which it transfers previously recognised financial assets but retains substantially all the associated risks and rewards of those assets. In transactions in which substantially all the risks and rewards of ownership of a financial asset are neither retained nor transferred, the Group derecognises the transferred asset if control over that asset (i.e. the practical ability to sell the transferred asset) is relinquished. The rights and obligations retained in the transfer are recognised separately as assets and liabilities, as appropriate. If control over the asset is retained, the Group continues to recognise the asset to the extent of its continuing involvement, which is determined by the extent to which it remains exposed to changes in the value of the financial asset transferred.

The derecognition criteria are also applied to the transfer of part of an asset, rather than the asset as a whole, or to a group of similar financial assets in their entirety, when applicable. If transferring a part of an asset, such part must be a specifically identified cash flow, a fully proportionate share of the asset, or a fully proportionate share of a specifically-identified cash flow.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

3 Significant accounting policies (continued)

Derecognition of financial assets and liabilities (continued)

(ii) *Financial liabilities*

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. If an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of the existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the consolidated statements of comprehensive income.

Cash flow hedges

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss. If the hedging derivative expires or is sold, terminated, or exercised, or the hedge no longer meets the criteria for cash flow hedge, or the hedge designation is revoked, then hedge accounting is discontinued prospectively. In a discontinued hedge of a forecast transaction, the cumulative amount recognised in other comprehensive income from the year when the hedge was effective is reclassified from equity to profit or loss as a reclassification adjustment when the forecast transaction occurs and affects profit or loss. If the forecast transaction is no longer expected to occur, then the balance in other comprehensive income is reclassified immediately to profit or loss as a reclassification adjustment.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and unrestricted due from banks and other financial institutions with original maturities of less than three months, which are subject to insignificant risk of changes in fair value, and are used by the Group in the management of short-term commitments.

3 Significant accounting policies (continued)

Property and equipment

(i) Recognition and subsequent measurement

The initial cost of an item of property and equipment comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. After recognition as an asset, property and equipment whose fair value can be measured reliably are carried at a revalued amount, being its fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Expenditure incurred after property and equipment has been put into operation, such as repairs and maintenance and overhaul costs, are normally charged to income in the year in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditure is capitalised as an additional cost of property and equipment.

The Group revalues its property and equipment to ensure that the fair value of revalued assets does not differ materially from its carrying amount. Surpluses arising from revaluation are dealt with in the revaluation reserve in equity. Any deficit arising is offset against the revaluation reserve to the extent of a previous increase for the same asset. In all other cases, a decrease in carrying amount is charged to profit or loss as impairment.

(ii) Depreciation

Depreciation is charged to profit or loss on a straight-line basis over the estimated useful life of each item of property and equipment. The estimated useful lives of property and equipment are as follows:

• Buildings	40 years
• Office equipment and motor vehicles	10 years
• Computers	3-5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted, if appropriate. The change is accounted for as changes in accounting estimates.

Construction-in-progress

Construction-in-progress represents the cost of construction of new buildings and premises, which have not been fully completed or installed. No depreciation is provided for construction-in-progress during the period of construction.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

3 Significant accounting policies (continued)

Intangible assets

(i) *Acquired intangible assets*

Intangible assets that are acquired by the Group are stated at cost less accumulated amortisation and any impairment losses.

(ii) *Amortisation*

Amortisation is charged to the consolidated statements of comprehensive income on a straight-line basis over the estimated useful lives of intangible assets unless such lives are indefinite. The estimated useful life of intangible assets is as follows:

- Software 3 years

Amortisation methods and amortisation periods are reviewed at each reporting date and adjusted, if appropriate. The change is accounted for as changes in accounting estimates.

Investment property

Property held for the purpose of earning rentals or benefiting from capital appreciation is classified as investment property. Investment property is measured initially at its cost. Transaction costs are included in the initial measurement. Subsequently, investment property is measured at fair value and changes in fair value are recognised in profit or loss.

Due to the commencement of owner-occupation or of development with a view to sell, the deemed cost of investment property carried at fair value transferred to owner-occupied property or inventories is the investment property's fair value at the date of change in use.

If an owner-occupied property becomes an investment property that will be carried at fair value due to the cease of owner-occupation, the Group shall reevaluate it at the fair value at the date of change in use, and reclassify it to investment property.

3 Significant accounting policies (continued)

Impairment

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If such an indication exists, the asset's recoverable amount is estimated.

(i) *Loans and receivables*

Loans and receivables are presented net of allowances for uncollectability. Allowances are made against the carrying amount of loans and receivables that are identified as being potentially impaired, based on regular reviews of outstanding balances, to reduce these loans and receivables to their recoverable amount in accordance with BOM Provisioning Guidelines. Increases in the allowance account are recognised in profit or loss. When a loan is known to be uncollectible, all the necessary legal procedures have been completed and the final loss has been determined, the loan is written off directly.

In accordance with the BOM Provisioning Guidelines, the Group is required to determine the quality of loans and receivables based on their qualitative factor and time characteristics in classifying them and determining provisions. Such a model classifies the Group's loans and establishes allowances for loan losses at the rates of 1%, 5%, 25%, 50% and 100%, based on credit classification categories of performing, in arrears, substandard, doubtful and loss, respectively. On 26 August 2014, BOM Provisioning Guidelines were revised and require the Group to recognise 1% (previously 0% was applied) allowance for loan loss for performing loan originated on or after 27 August 2014. The Group does not recognise 1% allowance for the deposit collateralized loans and overnight loans.

Qualitative characteristics taken into consideration for determining credit classification include completeness of loan file, financial indicators of the borrower, value of the collateral and previous rescheduling of the loan, etc.

When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

(ii) *Available-for-sale financial assets*

When a decline in the fair value of an available-for-sale financial asset has been recognised in other comprehensive income and there is objective evidence that the asset is impaired, the cumulative loss that had been recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognised. Impairment losses recognised in profit or loss for an investment in an equity instrument classified as available-for-sale are not reversed through profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss is recognised in profit or loss, the impairment loss is reversed, with the amount of the reversal recognised in profit or loss. When a decline in the fair value of an available-for-sale financial asset has been recognised in other comprehensive income and there is objective evidence that the asset is impaired, the cumulative loss that had been recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognised. Impairment losses recognised in profit or loss for an investment in an equity instrument classified as available-for-sale are not reversed through profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss is recognised in profit or loss, the impairment loss is reversed, with the amount of the reversal recognised in profit or loss. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

3 Significant accounting policies (continued)**Impairment (continued)****(iii) Held-to-maturity financial assets**

An impairment loss in respect of held-to-maturity financial assets measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate and is recognised in profit or loss. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

(iv) Assets other than financial instruments

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the recoverable amount of the respective asset. The recoverable amount is the higher of the asset's or cash generating unit's fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs. An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment is recognised as loss of current operation in the consolidated statements of comprehensive income.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. All reversals of impairment are recognised as profit in the consolidated statements of comprehensive income.

Repurchase agreements

The Group enters into purchase (sale) of investments under agreements to resell (repurchase) substantially identical investments at a certain date in the future at a fixed price. Investments purchased subject to commitments to resell them at future dates are not recognised on the consolidated statements of financial position. The amounts paid are recognised in loans to either banks or customers. The receivables are shown as collateralised by the underlying security. Investments sold under repurchase agreements continue to be recognised in the consolidated statement of financial position and are measured in accordance with the accounting policy for either assets held for trading or available-for-sale as appropriate. The proceeds from the sale of the investments are reported as liabilities to either banks or customers. The difference between the sale and repurchase considerations is treated as interest income or expense and is accrued over the period of the agreement using the effective interest method.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

3 Significant accounting policies (continued)

Share capital

(i) Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares and share options are recognised as a deduction from equity, net of taxes.

(ii) Treasury shares

When share capital recognised as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, is net of any tax effects, and is recognised as a deduction from equity. Repurchased shares are classified as treasury shares and are presented as a deduction from total equity. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to / from retained earnings.

(iii) Non-controlling interests

Non-controlling interests, which represent the equity in a subsidiary not attributable, directly or indirectly, to a parent's ownership interests, consist of the amount of those non-controlling interests at the date of the original combination calculated in accordance with IFRS 3, 'Business Combinations' and the non-controlling interests share of changes in equity since the date of the combination.

Provisions

A provision is recognised in the consolidated statements of financial position when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are regularly reviewed by the Group's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

3 Significant accounting policies (continued)

Revenue

(i) Interest income

Interest income and expense is recognised in the consolidated statements of comprehensive income as it accrues, taking into account the effective yield of the asset or liability. Interest income and expense include the amortisation of any discount or premium or other differences between the carrying amount of an interest bearing instrument and its amount at maturity calculated on an effective interest rate basis except that the Group does not amortise loan originating costs and fees on an effective interest rate basis but rather recognises them in profit or loss as incurred.

(ii) Fee and commission income

Fee and commission income is charged to customers for the financial services provided. Fee and commission income is recognised when the corresponding service is provided.

(iii) Rental income

Rental income from leased property is recognised in the consolidated statements of comprehensive income on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income.

(iv) Dividends

Dividend income is recognised when the right to receive dividends is established.

Operating lease payments

Payments made under operating leases are recognised in the consolidated statements of comprehensive income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statements of comprehensive income as a deduction to the total rental expenses over the term of the lease.

Income tax

Income tax expense is comprised of current tax only.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using the tax rates enacted or substantially enacted at the reporting date and any adjustment to tax payable in respect of previous years.

The Ministry of Finance issued a regulation on deferred tax differences in May 2010. However, the Taxation Office of Mongolia has not implemented the regulation yet and deferred tax issues have not been incorporated in the Tax Methodology yet due to unfamiliarity of the deferred tax accounting among companies, including commercial banks, as well as the tax authorities. Substantial implementation efforts such as issuance of calculation methodologies, training and discussions with practitioners are required for smooth adoption. BOM is planning to issue guidelines for commercial banks on the accounting for deferred tax assets and liabilities and recognises that current accounting practices for deferred taxes by commercial banks do not comply with IFRS.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

3 Significant accounting policies (continued)

Income tax (continued)

The Government of Mongolia continues to reform the business and commercial infrastructure in its transition to a market economy. As a result the laws and regulations affecting businesses continue to change rapidly. These changes are sometimes characterized by poor drafting, varying interpretations and inconsistent application by the tax authorities. In particular, taxes are subject to review and investigation by a number of authorities who are enabled by law to impose fines and penalties. While the Group believes it has provided adequately for all tax liabilities based on its understanding of the tax legislation and status at the period-end, the above facts may create tax risks for the Group which are not possible to quantify at this stage.

Employee benefits

The Group does not provide severance benefits to its employees except for providing the employer's portion in accordance with statutory social insurance payments to the State Social Insurance Scheme. Contributions made by the Group are recognised as an expense in the consolidated statements of comprehensive income as incurred.

New standards and interpretations not yet adopted

The following new standards, interpretations and amendments to existing standards have been published and are effective for annual periods beginning after January 1, 2016, and the Group has not early adopted them.

(i) IFRS 9 Financial Instruments

IFRS 9, published in December 2015, replaces the existing guidance in IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IFRS 9. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted.

Given the nature of the Group's operations, this standard is expected to have a pervasive impact on the Group's financial statements. The Group is assessing the potential impact on its consolidated financial statements resulting from the application of IFRS 9.

(ii) Amendments to IFRS 11 Joint Arrangements

The amendments require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business must apply the relevant IFRS 3 principles for business combinations accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. These amendments are effective for annual periods beginning on or after 1 January 2016.

These amendments are not expected to have significant impact on the consolidated financial statements.

3 Significant accounting policies (continued)

New standards and interpretations not yet adopted (continued)

(iii) IFRS 15 Revenue from Contracts with Customers

IFRS 15, published in January 2016, establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including IAS 18, Revenue, IAS 11, Construction Contracts and IFRIC 13, Customer Loyalty Programmes. IFRS 15 is effective for annual reporting periods beginning on or after January 1, 2018, with early adoption permitted.

The Group is assessing the potential impact on its consolidated financial statements resulting from the application of IFRS 15.

(iv) Revised Accounting Guidelines by Bank of Mongolia and Ministry of Finance

Bank of Mongolia and Ministry of Finance announced revised accounting guidelines for Mongolian Banks (the "Revised Accounting Guidelines") on 6 February 2015. The Revised Accounting Guidelines include more detailed and specific accounting treatments of assets, liabilities, equity, revenue and expense, and off-balance sheet items relating to banks. It includes accounting treatments for various types of financial instruments, option to estimate the loan loss impairment based on IAS 39 and related accounting treatment. In addition, it requires banks to apply deferred tax accounting for corporate income tax.

The Revised Accounting Guidelines are prospectively effective for annual reporting periods beginning on or after 1 January 2017. The Group is assessing the potential impact on its consolidated financial statements resulting from the application of the Revised Accounting Guidelines.

Others

Certain prior year amounts in the accompanying consolidated financial statements have been reclassified to conform to the current year's presentation. These reclassifications do not affect net asset or net profit of accompanying consolidated financial statements.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

4 Acquisition of Subsidiary

Business combination

On 19 November 2013 the Group obtained control of TDB Media LLC ("TDBM"), a media company licensed by the Mongolia Telecommunication Regulatory Commission to operate Bloomberg TV Mongolia in Ulaanbaatar since 2011 by acquiring additional shares and voting interests in TDBM. As a result, the Group's equity interest in TDBM increased from 49% to approximately 84.4%.

Even though the Group took control of TDBM on 19 November 2013, the Group deemed the acquisition date as 31 December 2013 since there were no significant transactions between the acquisition date and the end of the reporting period. As a result, the Group did not include total comprehensive income of TDBM in the consolidated financial statements as at and for the year ended 31 December 2013.

The following summarises the major classes of consideration transferred, and the recognised amounts of assets acquired and liabilities assumed at the acquisition date.

	2013
	MNT'000
Cash	5,240,000
Buildings	6,060,000
Total consideration transferred	<u>11,300,000</u>

The fair value of buildings was based on the market approach.

Identifiable assets acquired and liabilities assumed

The following table summarises the recognised assets acquired and liabilities assumed at the acquisition date.

	2013
	MNT'000
Cash and cash equivalents	448,786
Property and equipment	8,567,435
Intangible assets	389,670
Other assets	987,741
Other liabilities	(321,068)
Total identifiable net assets acquired	<u>10,072,564</u>

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

4 Acquisition of Subsidiary (continue)

Goodwill

Goodwill arising from the acquisition has been recognised as follows:

	2013
	MNT'000
Consideration transferred	11,300,000
Non-controlling interests, based on their proportionate interest in the recognised amounts of the assets and liabilities of TDBM	1,575,769
Fair value of pre-existing interest in TDBM	-
Fair value of identifiable net assets	10,072,564
Goodwill	<u>2,803,205</u>

Non-controlling interest

The following table summarises the information relating to non-controlling interest ("NCI") in TDBM.

31 December 2013

(In MNT'000)

	TDB Media LLC
NCI percentage	<u>15.64%</u>
Cash and cash equivalents	448,786
Property and equipment	8,567,435
Other assets	1,377,411
Liabilities	<u>(321,068)</u>
Net assets	<u>10,072,564</u>
Carrying amount of NCI	<u>1,575,769</u>

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

5 Cash and due from banks

	2015 MNT'000	2014 MNT'000
Cash on hand	62,391,611	70,182,271
Deposits and placements with banks and other financial institutions	287,224,533	293,571,604
Balances with BOM(*)	345,343,557	690,985,682
	<u>694,959,701</u>	<u>1,054,739,557</u>

(*) At 31 December 2015 and 2014, BOM requires that a minimum 12% of average customer deposits for two weeks must be maintained with BOM. In relation to the daily requirement, the Group also should maintain no less than 50% of the required reserve amount at the end of each day. At 31 December 2015 and 2014, the required reserve amount was MNT 296,787,518 thousand and MNT 321,032,758 thousand, respectively.

6 Investment securities

	2015 MNT'000	2014 MNT'000
Available-for-sale investment securities		
Unquoted equity securities, at cost(*1)	443,430	443,430
Equity securities, at fair value(*2)	94,006,770	78,448,110
Government bonds	9,336,383	445,234,481
Bank of Mongolia Treasury bills(*3)	194,649,861	-
Residential mortgage-backed securities(*4)	51,814,600	28,375,000
Promissory notes(*5)	74,193,728	-
	<u>424,444,772</u>	<u>552,501,021</u>
Held-to-maturity investment securities		
Government bonds	988,095,150	356,231,923
	<u>1,412,539,922</u>	<u>908,732,944</u>

(*1) Unquoted equity securities represent investments made in unlisted private companies and are recorded at cost as there is no quoted market price in active markets and their fair value cannot be reliably measured.

(*2) The Group acquired additional equity security of Turquoise Hill Resources Ltd ("TRQ") during the year ended 31 December 2015. Unrealised loss of MNT 15,794,879 thousand arising from changes in the fair value of such investment was recognised directly in equity as other comprehensive income for the year ended 31 December 2015.

(*3) Bank of Mongolia treasury bills have short maturities from one week to four weeks. The carrying amount approximates fair value.

(*4) Residential mortgage-backed securities represent senior and junior notes issued by MIK active SPC (one to seven) ("MIK SPCs"), which bear interest of 10.5% based on 8% mortgage loans transferred to MIK SPCs by Mongolian banks. The carrying amount approximates fair value.

(*5) The carrying amount of Promissory notes issued by Ministry of Finance is regarded as fair value as maturity of promissory notes is equal to or less than twelve-month period.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

7 Investment in associates and joint ventures

	2015 MNT'000	2014 MNT'000
Investment in MIK Holding JSC(*1)	43,438,826	11,476,733
Investment in MG Leasing LLC(*2)	871,839	1,695,567
Investment in JCDecaux Mongolia LLC(*3)	2,453,201	1,357,777
	<u>46,763,866</u>	<u>14,530,077</u>

(*1) MIK Holding LLC ("MIK") increased paid in capital in December 2015, the Group entered into a MNT 18,717,180 thousand investment. The Group's ownership interest in MIK increased to approximately 33.18% due to non-proportionate capital contribution. As a result, the Group recognised share of gain of MIK of MNT 4,038,372 thousand. In applying the equity method, the Group used the financial information of MIK as at 31 December 2015. The Group recognised its share of gain of MIK of MNT 9,206,541 thousand and MNT 1,085,044 thousand in 2015 and 2014, respectively.

(*2) In 2013, the Group entered into a MNT 1,773,610 thousand investment acquiring 55% equity interest in MG Leasing LLC ("MGLL") which is a joint venture established by the Group and MGL corporation. However, as decisions about relevant activities require the unanimous consent of the parties sharing control, the Group does not deem MGLL as a subsidiary but as a joint venture. In applying the equity method, the Group used the financial information of MGLL as at 31 December 2015. The Group recognised its share of loss of MGLL of MNT 823,728 thousand and MNT 41,401 thousand in 2015 and 2014, respectively.

(*3) In 2014, the Group entered into a MNT 1,316,003 thousand investment acquiring 49% equity interest in JCDecaux Mongolia LLC ("JCD"). As decisions about relevant activities requires the unanimous consent of the parties sharing control, the Group deems JCD as a joint venture. JCD increased paid in capital in June 2015, the Group entered into a MNT 947,153 thousand investment. The Group's ownership interest in JCD is not changed due to proportionate capital contribution. In applying the equity method, the Group used the financial information of JCD as at 31 December 2015, and recognised its share of gain of JCD of MNT 148,271 thousand and MNT 41,774 thousand in 2015 and 2014, respectively.

Condensed financial statements of associates as at 31 December 2015 and 2014, and for the years ended 31 December 2015 and 2014 were as follows:

Investees	2015 MNT'000		2014 MNT'000	
	Asset	Liability	Asset	Liability
MIK Holding JSC	2,169,173,333	2,050,414,508	893,948,818	847,669,235
MG Leasing LLC	44,533,672	42,948,511	38,667,409	35,584,559
JCDecaux Mongolia LLC	5,237,585	231,054	2,950,717	179,698

Investees	2015 MNT'000		2014 MNT'000	
	Operating revenue	Net income	Operating revenue	Net income
MIK Holding JSC	125,506,745	35,564,536	41,853,869	12,105,535
MG Leasing LLC	3,417,093	(1,649,657)	1,423,650	(75,274)
JCDecaux Mongolia LLC	1,448,209	296,503	371,448	85,254

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

8 Loans and advances

	2015 MNT'000	2014 MNT'000
Loans and advances to customers	2,713,765,929	2,804,731,400
Loans to executives, directors and staff	29,354,297	31,199,375
	<u>2,743,120,226</u>	<u>2,835,930,775</u>
Allowance for loan losses	(98,140,610)	(58,742,342)
	<u>2,644,979,616</u>	<u>2,777,188,433</u>

Movements in the allowance for loan losses for the years ended 31 December 2015 and 2014 were as follows:

	2015 MNT'000	2014 MNT'000
At 1 January	58,742,342	18,042,005
Provision for the year, net	44,573,901	40,700,337
Written off	(5,175,633)	-
At 31 December	<u>98,140,610</u>	<u>58,742,342</u>

In addition, the Group transferred its mortgage loans with carrying amounts of MNT 234,396,500 thousand and MNT 175,275,267 thousand during 2015 and 2014 to MIK SPCs. This transaction qualified for derecognition.

9 Bills purchased under resale agreements

Contract party	Sold date	Maturity	Interest rate	2015 MNT'000	2014 MNT'000
Development Bank of Mongolia	16 Oct 2015	14 Apr 2016	6.1%	99,799,000	-

The Group entered into resale agreement with Development Bank of Mongolia, where the Group purchased BOM treasury bill at an aggregate amount of MNT 99,799,000 thousand. The security purchased are collateralised for the receivables pertaining to the agreement.

10 Subordinated loans

	2015 MNT'000	2014 MNT'000
UB City Bank	4,000,000	4,000,000

The loan to UB City Bank bears a fixed interest of 8% per annum and is to be repaid in full on 25 September 2017.

Notes to the Consolidated Financial Statements

Construction-in-progress account mainly consists of costs for construction of the Group's office building and branch buildings. The construction of the Group's office building commenced during the second quarter of 2011 and was completed during the fourth quarter of 2014. There were no capitalised borrowing costs related to the acquisition of property and equipment during the year ended 31 December 2014.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

11 Property and equipment (continued)

Details of the latest valuation of buildings appraised by an independent professional valuation company are as follows:

Date of valuation	Description of property	Basis of valuation
31 October 2008	Buildings	Market value
31 December 2011	Buildings	Market value
30 June 2014	Buildings	Market value
31 December 2014	Buildings	Market value
31 December 2015	Buildings	Market value

The following table shows the valuation technique used in measuring the fair value of buildings, as well as the significant unobservable inputs used.

Valuation technique	Significant unobservable inputs	Inter-relationship between key unobservable inputs and fair value measurement
Market price approach	Average selling price for proxy (unit: MNT'000 per m ²); land ownership: 20 ~ 1,100 buildings: 300 ~ 8,000 apartments: 1,573 ~ 2,648	The estimated fair value would increase (decrease) if: Expected market price for proxy land ownership, buildings, apartments were higher (lower)

12 Intangible assets and goodwill

	2015 MNT'000	2014 MNT'000
Cost		
At 1 January	8,269,780	7,276,387
Additions		
Software	680,125	993,393
At 31 December	8,949,905	8,269,780
Amortisation and impairment losses		
At 1 January	3,727,314	3,005,772
Amortisation charge for the year(*1)	969,647	721,542
Impairment loss(*2)	2,803,205	-
At 31 December	7,500,166	3,727,314
Carrying amounts		
At 31 December	1,449,739	4,542,466

(*1) Amortisation is charged for software only.

(*2) Impairment loss is charged for goodwill only.(Note 30)

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

13 Investment property

	2015 MNT'000	2014 MNT'000
At 1 January	33,689,000	33,388,245
Reclassification from property and equipment	61,132,316	-
Change in fair value	4,967,684	300,755
At 31 December	<u>99,789,000</u>	<u>33,689,000</u>

The fair value of investment property was appraised by an independent professional valuation company. The independent appraiser provides the fair value of the Group's investment property portfolio every year.

The fair value hierarchy for investment property has been categorized as level 3 based on the inputs used in the valuation techniques.

There is no transfer to or from level 3 of investment property during 2015 and 2014.

The following table shows the valuation technique used in measuring the fair value of investment property, as well as the significant unobservable inputs used.

Valuation technique	Significant unobservable inputs	Inter-relationship between key unobservable inputs and fair value measurement
Market price approach	Average selling price for proxy (unit: MNT'000 per m ²); Buildings: 5,867 ~ 8,000	The estimated fair value would increase (decrease) if: Expected market price for proxy buildings were higher (lower)

14 Foreclosed real properties

	2015 MNT'000	2014 MNT'000
Industrial buildings	11,409,870	8,674,026
Less: Allowances	(10,039,060)	(7,653,572)
	<u>1,370,810</u>	<u>1,020,454</u>

Properties acquired through foreclosure are initially recognised at fair value, recorded as foreclosed properties and are held for sale. The allowance is subsequently estimated in accordance with the Regulations on Asset Classification and Provisioning, jointly approved by the President of BOM and Ministry of Finance. Such a model classifies the Group's foreclosed properties based on time characteristics and makes allowances at the rates of 1%, 5%, 25%, 50% and 100% for credit classification categories of performing, in arrears, substandard, doubtful and loss, respectively. On 26 August 2014, BOM Provisioning Guidelines revised and requires the Group to recognize 1% (previously 0% was applied) allowance for performing assets created on or after 27 August 2014. During 2015 and 2014, an allowance of MNT 135,000 thousand and MNT 544,869 thousand were written back upon recovery of foreclosed real properties, respectively, and foreclosed real properties were not written off against impairment losses.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

15 Other assets

	2015 MNT'000	2014 MNT'000
Precious metals	639,614	23,396
Accrued interest receivables	99,680,366	64,312,329
Prepayment	18,413,050	28,990,939
Inventory supplies	1,498,486	1,144,697
Spot trading receivables	104,719,018	151,552,920
Derivative assets for trading	34,642,718	59,225,754
Hedging instruments(*1)(*2)(*3)	66,333,362	-
Domestic exchange settlement receivables	3,781,011	3,314,679
Other receivables, net(*4)	3,840,249	2,454,055
	333,547,874	311,018,769

(*1) Changes in deferred gains recognised at initial recognition of derivative financial instruments were as follows:

	2015 MNT'000	2014 MNT'000
Beginning balance	-	-
Deferral	91,459,139	-
Amortisation(*)	(11,615,462)	-
Ending balance	79,843,677	-

(*) Amortisation of deferred gains were recognised as other comprehensive income for the year ended 31 December 2015, in connection with cash flow hedge, as the effective portion of change in fair value of the derivative.

(*2) The Group applied cash flow hedges by using derivatives (FX swaps) to hedge the foreign currency risks arising from its issuance of notes denominated in USD.

(*3) Changes in other comprehensive income recognised as effective portion of cash flow hedge for the years ended 31 December 2015 and 2014 were as follows:

	2015 MNT'000	2014 MNT'000
Beginning balance	-	-
Increase	66,333,362	-
Reclassification(*)	(26,395,000)	-
Ending balance	39,938,362	-

(*) Valuation gain which were reclassified to profit or loss for the years ended 31 December 2015 and 2014. The recognised amount of the ineffective portion of the gain or loss on the hedging instruments is nil. The Group expects that the period when derivative contracts designated as a cash flow hedge are exposed to cash flow volatility risk as at 31 December 2015, will be up until 29 April 2020.

(*4) Other receivables are presented net of impairment losses amounting to MNT 36,741 thousand and MNT 20,089 thousand as at 31 December 2015 and 31 December 2014, respectively.

Notes to the Consolidated Financial Statements

The repayment dates for this loan vary in accordance with the tenor of loans granted to the various borrowers.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

20 Debt securities issued

	2015 MNT'000	2014 MNT'000
Debt securities issued, at amortised cost	1,175,921,345	741,354,845

On 21 January 2014, the Group issued CNY 700,000,000 senior notes due on 21 January 2017 at a price of 99.367% under its USD 700,000,000 Euro Medium Term Note ("EMTN") Programme which was launched on 13 October 2012. These bonds bear interest at 10.0% per annum payable semi-annually.

On 19 May 2015, the Group issued USD 500,000,000 guaranteed notes (unconditionally and irrevocably guaranteed by the government of Mongolia) due on 19 May 2020 at a price of 100% under its USD 500,000,000 Global Medium Term Note ("GMTN") Programme which was launched on 28 April 2015. These bonds bear interest at 9.375% per annum payable semi-annually.

During 2015 and 2014, the respective debt securities accreted by MNT 7,840,740 thousand and MNT 4,371,907 thousand, respectively, using the effective interest method.

The Group is also obligated to bear withholding tax in addition to the interest expenses paid to certain investors on its senior notes in accordance with the relative double tax treaty between Mongolia and related countries, and these additional cash outflows effectively increase actual interest rates for the notes.

21 Subordinated debt securities issued

	2015 MNT'000	2014 MNT'000
Subordinated debt, at amortised cost	29,939,700	75,351,569

On 24 May 2011 and 27 June 2012, the Group issued USD 5,000,000 and USD 10,000,000 subordinated notes due on 25 May 2016 and 6 June 2017 at face value, both of which are payable semi-annually, respectively.

The Group is also obligated to bear withholding tax in addition to the interest expenses paid to certain investors on its subordinated notes in accordance with the double tax treaty between Mongolia and related country, and these additional cash outflows effectively increase actual interest rates for the notes. The above liabilities will, in the event of the winding-up of the Group, be subordinated to the claims of depositors and all other creditors of the issuer.

During 2015 and 2014, the respective debt securities accreted by MNT 76,671 thousand and MNT 73,305 thousand, respectively, using the effective interest method.

Notes to the Consolidated Financial Statements

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

37 Significant transactions and balances with related parties (continued)

The loans to executive officers are included in loans and advances of the Group. Interest rates charged on mortgage loans and other loans extended to executive officers are less than would be charged in an arm's length transaction. The mortgages granted are secured by the properties of the respective borrowers.

Total remuneration and employees benefit paid to the executive officers and directors for the years ended 31 December 2015 and 2014 amounted to MNT 5,339,872 thousand and MNT 5,315,930 thousand, respectively.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

38 Categories of financial instruments

The carrying amounts of the categories of financial assets and financial liabilities as at 31 December 2015 and 2014 were summarised as follows:

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

39 Financial risk management

(a) Introduction and overview

The Group has exposure to the following risks arising from financial instruments:

- Credit risks
- Liquidity risks
- Market risks

This note provides information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board has established the Asset and Liability Committee ("ALCO") and Credit Committee, which are responsible for developing and monitoring the Group's risk management policies in their specified areas.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

The Group's Representative Governing Board ("RGB") is responsible for monitoring compliance with the Group's risk management policies and procedures, and for reviewing the adequacy of the risk management framework in relation to the risks faced by the Group. The RGB is assisted in these functions by Internal Audit. Internal Audit undertakes both regular and ad-hoc reviews of risk management controls and procedures, the results of which are reported to the RGB.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

39 Financial risk management (continued)

(b) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's loans and advances and investment securities.

Management of credit risk

The Board of Directors has delegated responsibility for the management of credit risk to its Credit Committee. Each branch is required to implement the Group's credit policies and procedures, with credit approval authorities delegated from the Group's Credit Committee. Each branch is responsible for the quality and performance of its credit portfolio and for monitoring and controlling all credit risks in its portfolios, including those subject to central approval.

Regular audits of branches and credit processes are undertaken by Internal Audit.

An analysis of the net amounts of loans and investment securities with respective allowances at the reporting date was shown below.

(b) Credit risk (continued)

Impaired loans and securities

Impaired loans and securities are loans and securities for which objective evidence demonstrates that a loss event has occurred after the initial recognition of the assets and that the loss event has an impact on the future cash flows of the assets that can be estimated reliably.

Set out below is an analysis of the gross and net (after allowances for loan losses) amounts of delinquent or individually impaired assets by classifications.

	2015 MNT'000			2014 MNT'000		
	Gross	Net	Fair value of collateral(*)	Gross	Net	Fair value of collateral(*)
In arrears	225,843,900	214,551,704	192,555,800	162,499,799	154,374,809	133,043,229
Substandard	83,290,704	62,468,028	61,564,992	78,522,293	58,891,719	58,346,867
Doubtful	76,841,944	38,420,972	37,967,140	20,932,352	10,466,176	10,289,851
Loss	13,932,061	-	-	14,123,762	-	-
	<u>399,908,609</u>	<u>315,440,704</u>	<u>292,087,932</u>	<u>276,078,206</u>	<u>223,732,704</u>	<u>201,679,947</u>

(*) The fair value of collateral represents the mitigation of credit risk due to collateral by each item. The fair value of collateral does not include mitigation of credit risk by other types of credit enhancement such as floating charge, guarantee from the third party and other tangible assets.

The Group holds collateral against loans and advances to customers in the form of mortgage interests over property, other registered securities over assets, and guarantees. Collateral generally is not held over loans and advances to banks except when securities are held as part of reverse repurchase and securities borrowing activities. Collateral usually is not held against investment securities, and no such collateral was held at 31 December 2015 or 2014.

The ultimate collectability of the loans is subject to a number of factors, including the successful performance of the debtors under various restructuring plans in place or in process of negotiation and their ability to perform on loan and debt obligations given the status of the Mongolian economy and the potential continuation of adverse trends or other unfavorable developments. Consequently, it is reasonably possible that adjustments could be made to the reserves for impaired loans and to the carrying amount of investments in the near term in amounts that may be material to the Group's consolidated financial statements.

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

39 Financial risk management (continued)**(b) Credit risk (continued)**

The Group monitors concentration of credit risk by sector. An analysis of concentration of credit risk at the reporting date is shown below:

	2015 MNT'000	2014 MNT'000
Agriculture	14,999,422	17,436,243
Mining and quarrying	357,352,881	341,202,328
Manufacturing	254,559,053	276,424,120

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

39 Financial risk management (continued)

(b) Credit risk (continued)

As stipulated in the Banking Law of Mongolia, the total value of loans, loan equivalent assets and guarantees provided to one person or group of related persons shall not exceed 20% of the total equity of the Group. The maximum value of loans, loan equivalent assets and guarantees provided to a shareholder, the chairman, a member of the Representative Governing Board, an executive director or a bank officer or any related person thereof shall not exceed 5% of the capital of the Group, and the total amount shall not exceed 20% of the capital of the Group respectively. The criteria for concentration of loan as at 31 December 2015 are as follows:

Description	Suitable ratios	31 December 2015	Violation
The loan and guarantee given to one borrower	<Eq 20%	17.2%	None
The loan and guarantee given to the single related party	<Eq 5%	2.4%	None
Total loans and guarantees given to the related parties	<Eq 20%	5.3%	None

(c) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations from its financial liabilities. The Group's approach for managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group is exposed to frequent calls on its available cash resources from current deposits, maturing deposits and loan drawdowns. The Group's ALCO sets limits on the minimum proportion of maturing funds available to cover such cash outflows and on the minimum level of interbank and other borrowing facilities that should be in place to cover withdrawals at unexpected levels of demand.

Exposure to liquidity risk

The key measure used by the Group for managing liquidity risk is the ratio of liquid assets to total liabilities, which is in line with the liquidity ratio described in Banking Law of Mongolia.

For this purpose the Group maintained a liquidity ratio; calculated as a ratio of a the Group's liquid assets, including cash on hand, deposits and placements with banks and other financial institutions, balances with BOM and investment securities to the Group's liquid liabilities; including deposit from customers, deposits and placements from the Groups and other financial institutions, loans from foreign financial institutions, taxation and debt securities issued.

Details of the reported ratio at the reporting date were as follows:

	2015	2014
As at 31 December	44%	41%

39 Financial risk management (continued)

(d) Market risks

Market risk is the risk that changes in market prices, such as interest rate and foreign exchange rates will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Management of market risks

The Group is exposed to the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Interest rate risk is measured by the extent to which changes in market interest rates impact margins and net income. To the extent the term structure of interest bearing assets differs from that of liabilities, net of interest income will increase or decrease as a result of movements in interest rates.

Interest rate risk is managed by increasing or decreasing positions within limits specified by the Group's management. These limits restrict the potential effect of movements in interest rates on interest margin and on the value of interest sensitive assets and liabilities.

Overall authority for market risk is vested with the ALCO.

Exposure to interest rate risks

The principal risk to which the Group's financial assets and liabilities are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instrument because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for repricing bands. A summary of the Group's interest rate gap position on its financial assets and liabilities are as follows:

TRADE AND DEVELOPMENT BANK OF MONGOLIA LLC AND ITS SUBSIDIARIES

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

39 Financial risk management (continued)
(d) Market risks (continued)
Exposure to foreign exchange rate risks

The Group is exposed to effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The Group's management sets limits on the level of exposure by currencies (primarily USD) and in total. These limits also comply with the minimum requirements set by BOM.

(In MNT'000)

	MNT denominated	2015 Foreign currencies	Total	MNT denominated	2014 Foreign currencies	Total

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

39 Financial risk management (continued)

(d) Market risks (continued)

Exposure to foreign exchange rate risks (continued)

A ten percent strengthening or weakening of the MNT against the USD at 31 December 2015 and 2014 would have increased (decreased) comprehensive income by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant.

	Ten percent Strengthening MNT'000	Ten percent Weakening MNT'000
2015		
At 31 December	<u>(13,304,927)</u>	<u>13,304,927</u>
2014		
At 31 December	<u>(9,354,377)</u>	<u>9,354,377</u>

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

39 Financial risk management (continued)**(e) Capital Management**

BOM sets and monitors capital requirements for the Group as a whole.

The Bank of Mongolia requires the Group to maintain a minimum capital adequacy ratio of 14.0% at 31 December 2015 and 2014, complied on the basis of total capital and total assets as adjusted for their risk ("CAR"), and a minimum of 9.0% at 31 December 2015 and 2014, complied on the basis of total tier 1 capital and total assets as adjusted for their risk ("TCAR").

Various limits are applied to elements of the capital base. The qualifying tier 2 capital cannot exceed tier 1 capital; and qualifying term subordinated borrowings capital may not exceed 50 percent of tier 1 capital.

Risk-weighted assets are determined according to specified requirements that seek to reflect the varying levels of risk attached to assets and off-balance sheet exposures.

The Group's policy is to maintain a strong capital base so as to maintain investors, creditors and market confidence and to sustain future development of the business. The impact of the level of capital on shareholders' return is also recognised and the Group recognises the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position.

The Group has complied with all externally imposed capital requirements throughout the period. There have been no material changes in the Group's management of capital during the year.

On 1 April 2015, the Governor of the Bank of Mongolia announced Order A-58, which requires the Group to increase its share capital to MNT 50 billion by 31 December 2015 and not to pay dividends by 31 December 2017.

The suitable ratios of the Group's capital adequacy as at 31 December 2015 and 2014, respectively, were as following:

	2015 MNT'000	2014 MNT'000
Tier 1 capital	490,113,103	422,393,739
Tier 2 capital	173,222,689	200,509,855
Total Tier 1 and Tier 2 capital	663,335,792	622,903,594
Risk weighted assets	3,980,409,511	3,250,150,263
Capital ratios		
Total regulatory capital expressed as a percentage of total risk-weighted assets ("CAR")	16.67%	19.17%
Total tier 1 capital expressed as a percentage of risk-weighted assets ("TCAR")	12.31%	13.00%

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

40 Fair values of financial assets and liabilities

Determination of fair value and fair value hierarchy

The Group follows the following hierarchy for determining and disclosing the fair value of financial instruments based on the level of significant inputs used in measurement.

Level 1: Fair value is based on quoted prices in active markets for identical assets or liabilities

Level 2: The inputs used for fair value measurement are market observable inputs, either directly or indirectly.

Level 3: Valuation techniques are used to estimate fair value of which significant inputs are not based on observable market data.

Fair value of financial assets and liabilities not carried at fair value

The Group determines fair values for those financial instruments which are not carried at fair value in the consolidated financial statements as follows:

(i) *Financial assets and liabilities for which fair value approximates carrying amount*

For financial assets and financial liabilities that are liquid or having short term maturity of less than one year, it is assumed that the carrying amounts approximate to their respective fair value. This assumption is also applicable to demand deposits, time deposits and variable rate financial instruments, which is principally due to the fact that the current market rates offered for similar deposit products do not differ significantly from market rates at inception.

(ii) *Fixed rate financial instruments*

The fair value of fixed rate financial assets and liabilities carried at amortised cost basis are estimated by comparing market interest rates when they were first recognised with the current market rates offered for the similar financial instruments available in Mongolia. For quoted debt issued, the fair values are measured based on quoted market prices and in case where observable market inputs are not available, a discounted cash flow model is employed.

Notes to the Consolidated Financial Statements

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

40 Fair values of financial assets and liabilities (continued)

The fair value hierarchy of financial instruments which are measured at fair value in the consolidated statement of financial position as at 31 December 2015 and 2014 were as follows:

(In MNT'000)

	2015(*2)			Total
	Level 1	Level 2	Level 3	
Investment securities (AFS)(*1)	94,006,770	329,994,572	-	424,001,342
Derivative assets	-	34,642,718	66,333,362	100,976,080
	<u>94,006,770</u>	<u>364,637,290</u>	<u>66,333,362</u>	<u>524,977,422</u>
Derivative liabilities	-	27,904,044	-	27,904,044

(*1) As at 31 December 2015, unquoted equity securities at cost amounting to MNT 443,430 thousand were excluded.

(*2) The fair value of level 2 financial instruments were measured by valuation technique using market observable interest rate and foreign currency exchange rate, etc.

There was no transfer between level 1 and level 2 for the year ended 31 December 2015.

(*3) The fair value of level 3 financial instrument was measured by discounted cash flow method using market unobservable forward exchange rate. USD to MNT forward exchange rate is 2,549.04 as at 31 December 2015.

A ten percent strengthening or weakening of input unobservable in markets as at 31 December 2015 would have increased or decreased other comprehensive income by MNT 61,572,401 thousand.

Total gains or losses for the period recognized in the profit or loss and other comprehensive income related to financial instruments in level 3 were MNT 26,395,000 thousand and MNT 39,938,362 thousand for the year ended 31 December 2015.

There was no transfer between level 3 and other levels for the year ended 31 December 2015.

(In MNT'000)

	2014(*2)			Total
	Level 1	Level 2	Level 3

Notes to the Consolidated Financial Statements

31 December 2015 and 2014

42 Commitment and contingent liabilities

Financial guarantees and letters of credit

At any time the Group has outstanding commitments to extend credit, these commitments take the form of undrawn portions of approved loans, credit card limits and overdraft facilities.

The Group provides financial guarantees and letters of credit to guarantee the performance of customers third parties. These agreements have fixed limits and generally extend for a period of less than one year. The Group also provides guarantees by acting as settlement agent in securities borrowing and lending transactions. The contractual amounts of commitments and contingent liabilities are set out in the following table by category.

The amounts reflected in the table for guarantees and letters of credit represent the maximum exposure to credit risk would be recognised at the reporting date if counterparties failed completely to perform as contracted.

As at 31 December	2015 MNT'000	2014 MNT'000
Letters of credit and guarantees	393,897,555	332,538,877
Loan and credit card commitments	160,542,611	182,317,263
Unfunded Syndicated risk participation	134,518,272	-

These commitments and contingent liabilities have off balance-sheet credit risk for which provisions are not currently made which is a local banking industry practice acknowledged by BOM. A significant portion of the contingent liabilities and commitments will expire without being advanced in whole or in part. Accordingly, the amounts do not represent expected future cash flows.

43 Interests in unconsolidated structured entities

Nature of risk associated with interests in unconsolidated structured entities as at 31 December 2015 was as follows:

Type	Nature and purpose	Financing	Total Assets
	To generate:		
Securitisation vehicles for loans and advances	<ul style="list-style-type: none"> ▪ funding for the Group's lending activities. ▪ fees for loan servicing. 	Issue of RMBS notes	2,010,062,427
	These vehicles are financed through the issue of notes to investors.		

Exposure to risk relating to interests in unconsolidated structured entities as at 31 December 2015 was as follows:

	Securitisation vehicles for loans and advances
Asset:	
Investment securities	51,814,600
