# ЕРӨНХИЙЛӨГЧИЙН МЭНДЧИЛГЭЭ

## Эрхэм хүндэт харилцагчид, түншүүд, хувьцаа эзэмшигчид ээ,

ХХБанк үүсгэн байгуулагдсаны 25-н жилийн ой тохиосон 2015 оны хувьд, Монгол улсын эдийн засгийн өсөлт сүүлийн 7 жилийн хугацаанд хамгийн бага өсөлтийг үзүүлсэн сорилтын жил байлаа. Энэхүү жилийн тайллан дахь үзүүлэлтүүдээс зээлийн өсөлт харьцангуй тогтмол мөн чанаргүй зээлийн хэмжээ өссөн зэрэг нь дэлхийн зах зээл дээрх түүхий эдийн үнэ үргэлжлэн суларснаас шалтгаалсан юм. Мөн хэрэглэгчдийн эрэлт хэрэгцээ буурснаас импорт буурч, бөөний болон жижиглэнгийн худалдааны секторт тодорхой хэмжээгээр нөлөөлсөн хүндрэлтэй жил байлаа. Эдгээр учир шалтгаануудаас үүдэн ХХБанкны үйл ажиллагааны үзүүлэлт нь өнгөрсөн жилүүдтэй харьцуулахад харьцангуй бага өсөлттэй байлаа.

Хэдий олон сорилтуудтай тулгарсан ч, банкны ерөнхий байр суурь хүчтэй хэвээр байж, нийт актив, байгууллагын зээл, худалдааны санхүүжилт, гадаад төлбөр тооцоо, засгийн газрын бонд, алтны арилжаа зэргээрээ тэргүүлэгч байр сууриа хадгалсаар байна. Түүнчлэн, нэг ажилтанд ногдох ашгийн хэмжээгээрээ тэргүүлж, хамгийн бага орлого зардлын харьцааны үзүүлэлттэй байснаараа хамгийн үр ашигтай банк хэвээр байгаа юм.

2015 онд бид хэд хэдэн томоохон ажлуудыг хэрэгжүүлэн ажилласанаараа бахархаж байна. Эдгээрээс нэн тэмдэглүүштэй нь, 5 жилийн хугацаатай 500 сая ам.долларын 144A/RegS глобал бондыг 5-р сард олон улсын зах зээл дээр гаргасан явдал байлаа. Энэ нь банк анх удаа АНУ-ын зах зээлээс хөрөнгө оруулагч олох боломжийг бүрдүүлсэн бөгөөд бондын тал хувийг АНУ хөрөнгө оруулагчид авч, мөн 5 жилийн хугацаатайгаар гаргасанаараа онцлог байлаа. Энэхүү бонд амжилттай гарсан чухал хүчин зүйл бол манай банк Засгийн газрын төгрөгийн бондыг авсан байсан нь Монгол Улсын Засгийн газраас баталгаа гаргах нөхцлийг бүрдүүлсэн юм. Тус бондыг Засгийн газрын баталгаатайгаар гаргаснаар хүүгийн таатай нөхцөл авахад дөхөм болсон. Монголбанкны гадаадаас хөрөнгө оруулалт татан, улсын гадаад валютын нөөцийг нэмэгдүүлэхэд зориулан боловсруулсан своп программыг ашиглан, 500 сая ам.долларыг шууд хэлцэл хийн төгрөг болгон авсан нь харилцагчиддаа илүү урт хугацаатай зээлийг санал болгох боломж бүрдсэн юм. Энэхүү түүхэн бондыг амжилттай арилжаалсныг олон улсын Finance Asia сэргүүл өндөрөөр үнэлэн, "Азийн шилдэг корпорацийн бонд"-оор шалгарууллаа.

Мөн харилцагчиддаа илүү хүртээмжтэй худалдааны санхүүжилтийн үйлчилгээ хүргэх үүднээс ХХБанк олон улсын тэргүүлэгч санхүүгийн байгууллагуудтай хамтын ажиллагаагаа улам өргөжүүлсэн юм. Тухайлбал, ОХУ-ын Экспорт, Импортын банктай 1.3 тэрбум рублийн санхүүжилтийн гэрээг үзэглэж, Хятадын хөгжлийн банктай 60 сая ам.долларын хамтын ажиллагааны гэрээг байгуулан, Чех болон Унгар улсуудтай худалдааны санхүүжилтийн таатай нөхцлийг бий болгохоор Ceskoslovenska Obchodni Banka болон Унгарын худалдааны төвтэй "Хамтран ажиллах санамж бичиг"-т гарын үсэг зурлаа.

2016 он бидний хувьд сорилтын жил байх бөгөөд 12-р сард Оюу толгой ХХК болон голлох олон улсын банкуудын консорциумтай байгуулсан 4.4 тэрбум ам.долларын зээлийн гэрээ нь Монгол улсад нэн хэрэгтэй хөрөнгө оруулалтыг нэмэгдүүлж, Монгол улсын эдийн засгийн өсөлт өргөэд нэмэгдэнэ гэсэн итгэлийг өгч байгаа юм. Бид, нийт харилцагчид болон хувьцаа эзэмшигчид Та бүхэнтэйгээ цаашид ч хамтран ажиллаж, хөгжил дэвшлийн зүг хамтдаа урагшилна гэдэгт итгэлтэй байна.

# ГҮЙЦЭТГЭХ ЗАХИРЛЫН ИЛГЭЭЛТ

1990 оны 10-р сарын 19-ний өдөр үүсгэн байгуулагдсан Худалдаа, хөгжлийн банк өнөөдрийг хүртэл санхүүгийн өндөр чадамж, найдвартай үйл ажиллагаагаараа салбартай тэргүүлэн амжилт бүтээл, олон тоо дүүрэн байж, 25-н жилийн ойн баяртайгаа золголоо.

25-н жилийн турш бидэнтэй хамт байж, амжилт бүхнийг хамтдаа бүтээлцсэн эрхэм харилцагч Танд 2015 оны үйл ажиллагааны тайлангаа хүргэж буйдаа баяртай байна.

Тайлант оныг бид цаг хугацаатай өрсөн өсөн нэмэгдэж буй харилцагчдынхаа эрэлт, хэрэгцээнд тулгуурласан бүтээгдэхүүн, үйлчилгээгээ улам чанаржуулах, дэлхийн жишигт нийцсэн үйлчилгээг харилцагчиддаа хүргэж, тэдний итгэл хүндлэлийг хүлээсэн, банкны салбарт тэргүүлэгч банк болохоо улам баталгаажуулахын сацуу "Инновацийн жил" болгон зарлаж, банкны бүхий л үйл ажиллагааны түвшинд шинэчлэл, өөрчлөлт, ахиц дэвшил гаргахаар зорин ажиллалаа.

Хэдийгээр Монгол улсын эдийн засгийн нөхцөл байдалд мэдэгдэхүйц өөрчлөлтүүд гарч, гадаадын шууд хөрөнгө оруулалт болон уул уурхайн экспортын гол нэрийн бүтээгдэхүүний үнэ буурч, эрэлт бағассан, улсын төсвийн алдагдал ихэссэн зэрэг өөрчлөлтүүд нь эдийн засагт сөргөөр нөлөөлсөн хэдий ч банкны зүгээс зөв зүйтэй бодлогоор найдвартай үйл ажиллагаагаа хангахын сацуу харилцагчдынхаа эрэлт хэрэгцээнд нийцүүлэн үр ашигтай ажиллаж чадлаа.

Бид олон улсын зах зээл дээр Монгол улсын арилжааны банкны нэр хүндийг өндөрт өргөж, гадаадын хөрөнгө оруулагчдад нотолж чадсан бөгөөд активаараа 2015 оны турш тэргүүлэн, ашигт ажиллагаагаа хадгалан, харилцагчиддаа дараах шинэлэг бүтээгдэхүүн, үйлчилгээг хүргэлээ. Тухайлбал, Даатгалын тэргүүлэх компаниудтай хамтран даатгалын зуучлалын үйлчилгээг банкны салбар, тооцооны төвүүдээрээ дамжуулан харилцагчиддаа шинэлэг аргаар хүргэж эхэлсэн. Мөн олон улсын хөрөнгийн зах зээлийн салшгүй нэгэн цогц үйлчилгээ болох Кастодиан үйлчилгээг Монголын хөрөнгийн зах зээлд анх удаа бүрэн хэмжээнд нэвтрүүлсэн нь банкны үйл ажиллагаа санхүүгийн салбарт улам өргөжин тэлж буйг харуулж чадлаа.

Тайлант онд банкны салбарын хэмжээнд чанаргүй зээлийн хэмжээ ихэссэн хэдий ч байгууллагын болон иргэдийн зээлийг оновчтой шаардлага, шалгуураар олгож, нийт зээлийн багцыг эрсдэлгүй байлгах чиглэл баримтлан ажилласан юм.

Ирэх 2016 оны хувьд дахин "Инновацийн жил" уриан дор банкны үйл ажиллагаандaa хяналт тавих, бүтээгдэхүүн, үйлчилгээгээ сайжруулах, зохицой бодлого төлөвлөлтийг үйл ажиллагаандaa хэрэгжүүлэн ажиллана. Монгол улсын олон талт үйл ажиллагаатай, тэргүүлэх зэргийн банкны зүгээс болон хувиасаа тайлант онд амжилттай хамтран ажилласан ажилтнууд болон итгэл хүлээлгэсэн эрхэм харилцагч Та бүхэндээ талархал илэрхийлье.

2016 он бидний хувьд өөдрөг, гялалзсан амжилтаар дүүрэн жил байх болно.

Та бүхнийг гүнээ хүндэтгэсэн,

## БАЙГУУЛЛАГЫН БИЗНЕСИЙН ҮЙЛ АЖИЛЛАГАА

Худалдаа, хөгжлийн банк нь байгууллагын бизнесийн үйл ажиллагаагаар зах зээлд тэргүүлэгч болохын хувьд эдийн засгийн голлох салбарууд болох уул уурхай, барилга, үйлдвэрлэл, худалдаа төдийгүй харилцаа холбоо, боловсруулах үйлдвэрлэл, эрүүл мэнд, боловсрол, эрчим хүч, аялал жуулчлал, хөдөө аж ахуй гэх мэт улс орны хөгжлийг тодорхойлогч бүхий л салбаруудыг дэвшилтэт бүтээгдэхүүн, үйлчилгээ, түргэн шуурхай, найдвартай, эрсдэлгүй санхүүжилтийн арга хэлбэрээр дэмжсээр ирсэн билээ.

2015 онд Монгол улсын гадаад шууд хөрөнгө оруулалт буурч, уул уурхайн экспортын гол нэрийн бүтээгдэхүүний үнэ буурсан, эрэлт бацсан зэрэг нь эдийн засагт сэргэөр нөлөөлж, дотоодын үйлдвэрлэл, худалдааны эргэлт аажмаар саарч хямралын жил тохиосон хэдий ч банк том байгууллагын зээлийн багцыг бууруулалгүйгээр тэргүүлэх байр сууриа хадгалж амжилттай ажиллалаа.

Эдийн засгийн таагүй нөхцөл байдал, банкны зээлийн бодлого, шалгуур чангартал, гадаад валютын ханшийн өсөлт, эх үүсвэрийн хүрэлцээ хангамж зэргээс хамаарч, 2015 онд зээл олголт бага байлаа.

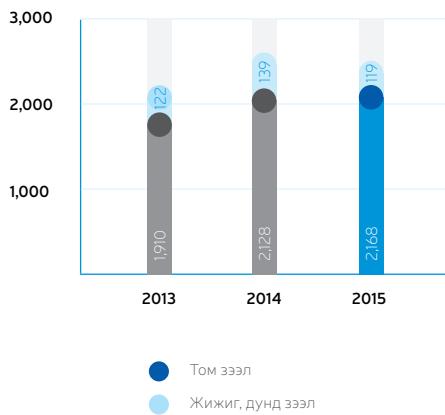

Хэдийгээр, өмнөх онтой харьцуулахад тайлант онд зээл олголт бага байсан боловч гадаад валютын ханшийн өсөлтөөс шалтгаалж, оны эцэст том зээлийн үлдэгдэл өмнөх оноос өссөн үзүүлэлттэй байна.

Эдийн засгийн эрсдэлтэй нөхцөл байдалд зээлдэгчид бизнестээ шинээр хөрөнгө оруулалт хийх, барилга, байгууламж барих, худалдан авах зэрэг хэрэгцээнээс татгалзах, түрхугацаагаар хойшлуулах шийдвэр гаргасан. Банкны зүгээс ч өндөр дүнтэй, эрсдэл бүхий хөрөнгө оруулалт, санхүүжилтийн хүсэлтийг нөхцөл, байдал сайжрах хүртэл хойшлуулахыг зөвлөж ажиллахаас гадна, харилцагчдын санхүүжилтийн хүсэлтийг нэн тэргүүнд бага хүүтэй, урт хугацаатай гадаад эх үүсвэрээр санхүүжүүлэх бодлого баримталсан. Бизнес эрхлэгчдийн үйл ажиллагаа, санхүү, төлбөрийн чадвар хүндрэлтэй байгаа өнөөгийн нөхцөлд бага хүүтэй, урт хугацаатай гадаад эх үүсвэртэй зээл нь зээлдэгчийн зээл, хүүгийн төлбөрийн ачаалал, зээл эргэн төлөгдөх эрсдэлийг бууруулах ач холбогдолтой.

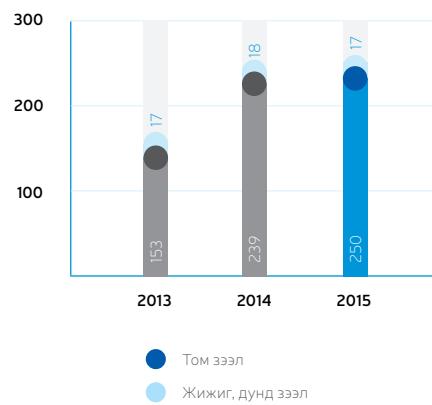

Худалдаа, хөгжлийн банк харилцагчдын санхүүжилтийн хэрэгцээг бага хүүтэй, урт хугацаатай эх үүсвэрээр санхүүжүүлэх зорилгоор 2015 онд Монгол улсын Хөгжлийн банк, Монголбанк, Жижиг, дунд үйлдвэрийг хөгжүүлэх сан, ЯОУХАБ, KFW банк, ING банк, Солонгос болон Тайваний экспорт, импортын банк зэрэг гадаад, дотоодын 30 гаруй банк, санхүүгийн байгууллагын 44-н хөтөлбөрийг амжилттай хэрэгжүүлж, 2015 онд дээрх банк, санхүүгийн байгууллагуудаас зээлийн эх үүсвэр хэлбэрээр татан төвлөрүүлсэн хөрөнгийн хэмжээ 1,012.3 тэрбум төгрөгт хүрлээ.

Мөн Монгол улсын Хөгжлийн банкнаас хэрэгжүүлсэн “Ноолуурын салбарыг дэмжих 100.0 тэрбум төгрөгийн зээлийн төсөл”, “Үйлдвэржилтийг дэмжих 300.0 тэрбум төгрөгийн зээлийн төсөл”, “ACEM хөтөлбөрийн 125.0 тэрбум болон 150.0 тэрбум төгрөгийн зээлийн төсөл, Жижиг, дунд үйлдвэрийг хөгжүүлэх сангаас хэрэгжүүлсэн “70.0 тэрбум төгрөгийн зээлийн төсөл”, Монголбанкнаас хэрэгжүүлсэн 256.0 тэрбум төгрөгийн “Алтны урьдчилгаа санхүүжилтийн хөтөлбөр”, ЯОУХАБ-ны “8.0 тэрбум иенийн хөнгөлөлттэй зээлийн төсөл”, OFID байгууллагын “25.0 сая ам.долларын худалдааны зээлийн хөтөлбөр”-ҮҮДэд оролцогч санхүүгийн байгууллагаар шалгарч, дамжуулан зээлдүүлэх үйл ажиллагааг амжилттай хэрэгжүүлсэн.

Дэлхийн болон БНХАУ-ын эдийн засгийн өсөлт удааширч байгаагаас шалтгаалан голлох эрдэс бүтээгдэхүүний эрэлт буурч, улмаар үнийн түвшин бага хэвээр байгаа нь МУ-ын эдийн засагт томоохон сорилт хэвээр байна. 2015 онд гадаад худалдааны нийт эргэлт жилийн 23.1%-иар, гадаадын шууд хөрөнгө оруулалт жилийн 20.5%-иар буурч, улмаар эдийн засгийн өсөлт удааширч, жилийн 2.3%-иар өссөн байна. Энэ нь дотоодын бизнес эрхлэгчдийн үйл ажиллагаанд сөргөөр нөлөөлөн, улмаар банкны зээлийн багцын эрсдэл нэмэгдэх шалтгаан болсон.

Бид зах зээлийн нөхцөл байдалтай уялдуулан зээлийн эргэн хяналт, зээлийн чанар ба зээлийн эргэн төлөлтөд тавих хяналтыг сайжруулах, барьцаа хөрөнгийн үнэлгээний арга аргачлалыг сайжруулах, зээлийн үйл ажиллагааны эрсдэлийг тодорхойлж, учирч болзошгүй эрсдэлийг бууруулах, эрсдэлээс сэргийлэх чиглэлээр холбогдох заавар, журамд өөрчлөлт оруулах, зээлийн үйл ажиллагааны процедур болон зээлийн программын сайжруулалтуудыг хийх, зээлийн ажилтнуудыг сургах, чадавхижуулах, эрсдэлийн тайлагналын системийг сайжруулан ажиллалаа.

## Санхүүгийн тайлагналын олон улсын стандарт (СТОУС)-ыг нэвтрүүлэхэд бэлэн болов

Монголбанкны Ерөнхийлөгч, Сангийн Сайдын хамтарсан 2015 оны 2-р сарын 16-ны өдрийн А35/20 тоот хамтарсан тушаалаар батлагдсан “Банкны нягтлан бодох бүртгэлийн шинэчилсэн заавар”-тай холбогдуулан СТОУС-ын дагуу банкны нийт зээлийн багцын үнэ цэнийн бууралтыг үнэлэх, хэмжих, зээлийн эрсдэлийн сан байгуулах аргачлал, заавар, гарын авлагыг боловсрууллаа.

## Зээлийн багцын эрсдэлийг тооцох арга аргачлалыг сайжрууллаа

ХХБанк нь зээлийн багцын эрсдэлийн удирдлагыг тогтмол сайжруулж ирсэн бөгөөд эдийн засагт үүссэн нөхцөл байдалтай уялдуулан зээлийн багцад стресс тестийг улирал тутамд хийн, зээлийн багцаас хүлээж болзошгүй алдагдлыг ОУ-ын стандарт загварууд, Базелийн хорооны зөвлөмжүүд болон Монголбанкнаас гаргасан мэдрэмтгийн байдлын шинжилгээний сценари нөхцлүүдийг банкныхаа түүхэн тоон өгөгдөл нийцүүлэн сайжрууллаа.

Тухайлбал, гадаад валютын ханш хүчтэй чангарах, барьцаа хөрөнгийн зах зээлийн үнэ цэнэ буурах, эдийн засгийн нөхцөл байдлаас шалтгаалан ажилгүйдэл өсөх, гадаад зах зээл дээр эрдэс бүтээгдэхүүний үнэ буурах гэх зэрэг сценари нөхцлүүд нь зээлийн багцад хэдий хэмжээний стресс үүсгэж болох зэргийг урьдчилан тооцоолж байгаагаараа давуу юм.

Мөн Эрсдэлийн удирдлагын газраас зээлийн багцын эрсдэлийг бодитой үнэлэх зорилгоор олон улсад түгээмэл ашигладаг “Credit Portfolio View-CPV” загвараар банкны зээлийн багцад шинжилгээ хийж байна.

## Банкны зээл шийдвэрлэх үйл ажиллагааг бүрэн автоматжууллаа

Зээл шийдвэрлэх процессыг хялбаршуулж, шийдвэр гаргалтыг түргэн шуурхай болгосноос гадна зээлийн гэрээ, холбогдох тайлан мэдээг автоматжуулж, зээлийн мэдээллийн бааз үүсгэх, улмаар зээлийн эрсдэлийн удирдлагыг олон улсын түвшинд нийцүүлэн хөгжүүлэх боломжийг бий болгосон ач холбогдолтой ажил болсон юм.

## Зах зээлийн эрсдэлийн удирдлагын системийг сайжрууллаа

Улс төр, нийгэм, эдийн засгийн гол зохицуулалт, өөрчлөлтүүд болон зах зээлийн бусад хэвийн бус нөхцлүүд банкны үйл ажиллагаанд нөлөөлөх нөлөөллийг судлан, түүний дагуу банкны гол эрсдэлүүдийг үнэлэх арга аргачлал, загварыг судлан сайжруулах, улмаар банкны хүлээж болзошгүй эрсдэлд дүгнэлт гарган ажиллаж байна.

Мөн зах зээлийн эрсдэлийн удирдлагын хүрээнд макро эдийн засаг болон эдийн засгийн голлох салбаруудын судалгааг тогтмол хийж, хүү болон ханшийн эрсдэлийг тооцоолон удирдаж, харилцагч тал, улс орны эрсдэлийн бодлогыг амжилттай хэрэгжүүлж байгаа юм.

## Хөрвөх чадварын эрсдэлийн удирдлага

Банкны салбар нь олон улсын зах зээл дээрээс хөрөнгө татах, гадаад, дотоодын санхүүгийн байгууллагуудаас зээлжилт авах зэргээр эх үүсвэрийг төрөлжүүлсэн байdag нь хөрвөх чадварын эрсдэлд онцгой анхаарах шаардлагыг бий болгодог. ХХБанк богино хугацааны хөрвөх чадварын шалгур “Liquidity coverage ratio” болон урт хугацааны хөрвөх чадварын шалгур үзүүлэлт “Net stable funding ratio”-г тооцоолдог.

## МЭДЭЭЛЛИЙН ТЕХНОЛОГИЙН ҮЙЛ АЖИЛЛАГАА

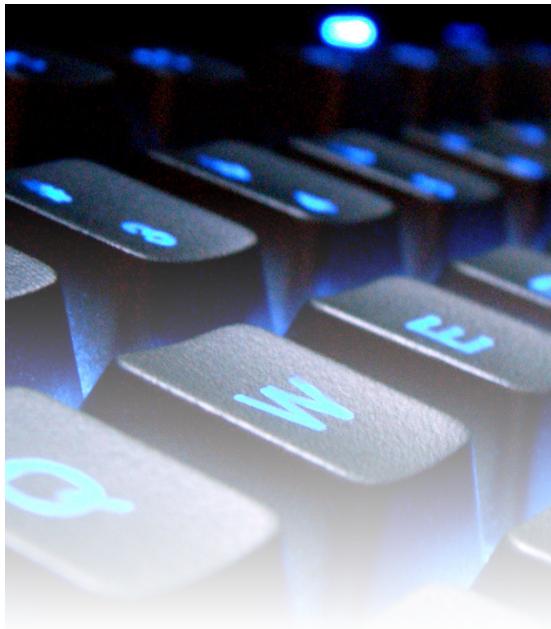

## Банкны үйлчилгээ харилцагчдад улам ойртсоор байна

Олон улсын гадаад шилжүүлгийн нэгдсэн сүлжээ бүхий SWIFT системийн программ хангамжийг SWIFT Alliance Access хувилбарт амжилттай шилжүүлсэн Монгол улс дахь анхны банк боллоо. Үг шинэчлэлт нь цаашид гадаад шилжүүлгийн дэвшилтэй бүтээгдхүүн, үйлчилгээг харилцагчиддаа хүргэх боломжтой болж байгаа юм.

Банкны суурь бүртгэлийн системтэй холбогдсон ERP системд суурилсан Даатгалын модулийг нэвтрүүлснээр даатгалын зуучлалын бүтээгдхүүн, үйлчилгээг салбар, TT-үүдээрээ дамжуулан иргэдэд хүргэж байна.

ОХУ-ын Diasoft компанийн кастодиан банкны системийг кастодион үйлчилгээндээ Монгол улсад анхлан нэвтрүүллээ.

Банкны [www.tdbm.mn](http://www.tdbm.mn) үндсэн вэб хуудсаа орчин үеийн мэдээллийн технологийн шинэлэг боломжуудаар сайжруулан, шинэ өнгө төрхтэйгээр харилцагчиддаа хүргэлээ.

## Банкны мэдээллийн технологийг Олон улсын стандартад нийцүүлэв

Банк шинэ Төв байрандаа нүүн орсонтой холбогдуулан үндсэн болон нөөц дата төвийг олон улсын стандартад нийцсэн шинэ техник хэрэгсэл, орчин нөхцөлтэйгээр шинэчлэн зохион байгуулж, сервер системүүдийг боломжит хамгийн бага тасалдал үүсэх байдлаар нүүлгэн шилжүүлсэн. Банкны картын систем болон мэдээллийн сан системд олон улсын шалгарсан стандарт болох PCI DSS стандартыг хангах ажлуудыг амжилттай хийж гүйцэтгэж байна.

## **2 Basis of preparation**

### **Statement of compliance**

The accompanying financial statements are consolidated financial statements that have been prepared in accordance with International Financial Reporting Standards ("IFRS") as modified by the BOM guidelines.

The major items modified by the BOM guidelines that are not in compliance with IFRS include the following, and the details are included in the corresponding notes:

- Allowance for loan loss reserves, receivables, letters of credit, unused credit commitments and foreclosed properties
- Accounting for deferred tax

The consolidated financial statements were authorised for issue by the Board of Directors on 28 March, 2016.

### **Basis of measurement**

The consolidated financial statements are prepared on the historical cost basis except for the following:

- Derivative financial instruments that are measured at fair value
- Available-for-sale financial assets that are measured at fair value
- Certain property and equipment that are measured at fair value subsequent to acquisition
- Investment property that is measured at fair value
- Precious metal that is measured at fair value

### **Functional and presentation currency**

These consolidated financial statements are presented in Mongolian Togrog ("MNT"), rounded to the nearest thousand. MNT is the Group's functional currency.

**2 Basis of preparation (continued)**

61

**Use of estimates and judgments**

The preparation of the consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Significant areas of estimation uncertainty and critical judgments of the Group in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are allowance for loan losses, valuation of financial instruments, and valuation of property and equipment and investment property.

**Changes in accounting policies**

Except for the following new standards and amendments to existing standards, the Group applies its accounting policies consistently which were used for preparing its annual consolidated financial statements as at and for the year ended 31 December 2014. The following changes in accounting policies are reflected in the Group's consolidated financial statements as at and for the year ending 31 December 2015.

**(i) Amendments to IAS 19 Employee Benefits**

The amendments clarify that if employees or third parties make contributions meeting certain criteria, an entity is permitted to recognize such contributions as a reduction in the service cost in the period in which the service is rendered. The amendments require an entity to consider contributions linked to service when accounting for service cost and defined benefit plans. Where the contributions are linked to service, they should be attributed to periods of service on the calculation method of its plans or straight-line basis. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

**(ii) Amendments to IFRS 8 Operating Segments**

The amendments clarify that an entity must disclose the judgements made by management in applying the aggregation criteria. The reconciliation of segment assets to total assets is only required to be disclosed if the assets are reported to the chief operating decision maker. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

**2 Basis of preparation (continued)**

**Changes in accounting policies (continued)**

**(iii) Amendments to IFRS 13 Fair Value Measurements**

The amendments clarify that short-term receivable and payable which do not have specified interest rate can be measured at original price of the invoice if the discount effect is not material. In addition, the portfolio exception can be applied not only to financial assets and financial liabilities, but also to other contracts within the scope of IAS 39. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

**(iv) Amendments to IAS 16 Property, Plant and Equipment, and IAS 38 Intangible Assets**

The amendments clarify that the accumulated depreciation or amortization on revaluation date is the difference between the gross and net carrying amounts of the asset. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

**(v) Amendments to IAS 24 Related Party Disclosures**

The amendments clarify that an entity or members of an entity which provide key management personnel services to the reporting entity or the parent of the reporting entity are related parties subject to the related party disclosures. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

**(vi) Amendments to IFRS 3 Business Combinations**

The amendments clarify that joint arrangements, not joint ventures, are outside the scope of IFRS 3. In addition, contingent consideration arrangements which are financial instruments should be classified as liabilities (or equities). All contingent consideration arrangements classified as assets (or liabilities) arising from a business combination should be subsequently measured at fair value through profit or loss. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

**2 Basis of preparation (continued)**

63

**Changes in accounting policies (continued)**

**(vii) Amendments to IAS 40 Investment Property**

The amendments clarify that if an entity acquires the property with ancillary services, it should treat that transaction as business combination. In addition, IFRS 3 is used to determine if the transaction is the purchase of an asset or business combination. These amendments are effective for annual periods beginning on or after July 1, 2014.

The Group applied the amendments retrospectively and the impact of the amendments on the consolidated financial statements is not significant.

**3 Significant accounting policies**

The accounting policies set out below have been consistently applied by the Group and are consistent with those used in previous years other than new accounting policies adopted by the Group in the current year.(see note 2)

**Basis of consolidation**

**(i) Subsidiaries**

Subsidiaries are investees controlled by the Group. The Group controls an investee when it is exposed to, or has rights to, variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

**(ii) Loss of control**

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

**(iii) Intra-group transactions eliminated on consolidation**

Intra-group balances, transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Intra-group losses are recognised as expense if intra-group losses indicate an impairment that requires recognition in the consolidated financial statements.

### **3 Significant accounting policies (continued)**

#### **Basis of consolidation (continued)**

##### **(iv) Non-controlling interests**

Non-controlling interests in a subsidiary are accounted for separately from the parent's ownership interests in a subsidiary. Each component of net profit or loss and other comprehensive income is attributed to the owners of the parent and non-controlling interests holders, even when the allocation reduces the non-controlling interests balance below zero.

#### **Business combination**

##### **(i) Business combination**

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control.

Each identifiable asset and liability is measured at its acquisition-date fair value.

As at the acquisition date, non-controlling interests in the acquiree are measured as the non-controlling interests' proportionate share of the acquiree's identifiable net assets.

The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the acquirer, the liabilities incurred by the acquirer to former owners of the acquiree and the equity interests issued by the acquirer.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

##### **(ii) Goodwill**

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, bargain purchase gain is recognised immediately in profit or loss.

When the Group additionally acquires non-controlling interest, the Group does not recognise goodwill since the transaction is regarded as equity transaction.

**3 Significant accounting policies (continued)**

65

**Investment in associates and joint ventures**

Associates are entities in which the Group has significant influence, but not control, over the financial and operating policies. Significant influence is presumed to exist when the Group holds between 20% and 50% of the voting power of another entity.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The investment in an associate and a joint venture is initially recognised at cost, and the carrying amount is increased or decreased to recognise the Group's share of the profit or loss and changes in equity of the associate and the joint venture after the date of acquisition. Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Intra-group losses are recognised as expense if intra-group losses indicate an impairment that requires recognition in the consolidated financial statements.

If an associate or a joint venture uses accounting policies different from those of the Group for like transactions and events in similar circumstances, appropriate adjustments are made to its financial statements in applying the equity method.

When the Group's share of losses exceeds its interest in an equity accounted investee, the carrying amount of that interest, including any long-term investments, is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has to make payments on behalf of the investee for further losses.

**Foreign currency transactions**

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated to the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items that are measured based on historical cost in a foreign currency are not translated.

However, foreign currency differences arising from the translation of available-for-sale equity investment (except on impairment, in which case foreign currency differences that have been recognised in OCI are reclassified to profit or loss), are recognised in OCI.

### 3 **Significant accounting policies (continued)**

#### **Financial instruments**

##### **(i) Classification**

Financial assets and financial liabilities held for trading include debt securities, equity securities and securities acquired and held by the Group for short-term trading purposes. Changes in fair value are recognised in profit or loss.

Derivatives recorded at fair value through profit or loss include certain derivative contracts that are not designated as effective hedging instruments. All trading derivatives in a net receivable position (positive fair value), as well as options purchased, are reported as trading assets. All trading derivatives in a net payable position (negative fair value), as well as options written, are reported as trading liabilities.

Financial assets or financial liabilities at fair value through profit or loss include those financial assets and financial liabilities designated at initial recognition because 1) such designation eliminates or significantly reduces an accounting mismatch; 2) respective financial assets and financial liabilities are part of a group of financial assets, liabilities or both and their performance is evaluated on a fair value basis in accordance with a documented risk management or investment strategy; or 3) the embedded derivative does not meet the separation criteria. Financial assets and financial liabilities at fair value through profit or loss are recorded at fair value and changes in fair value are recorded in the current operations.

Originated loans and receivables are loans and receivables created by the Group providing money to a debtor other than those created with the intention of short-term trading. Originated loans and receivables comprise loans and advances to customers and are reported net of an allowances to reflect the estimated recoverable amounts. The allowance is estimated in accordance with the Regulations on Asset Classification and Provisioning, jointly approved by the President of BOM and the Ministry of Finance.(BOM Provisioning Guidelines)

Held-to-maturity assets are non-derivative assets with fixed or determinable payments and fixed maturity that the Group has the intent and ability to hold to maturity, and are not designated at fair value through profit or loss or as available-for-sale. This includes certain investment securities held by the Group.

Available-for-sale assets are non-derivative assets that are designated as available-for-sale or are not classified as another category of financial assets.

**3 Significant accounting policies (continued)**

67

**Financial instruments (continued)**

**(ii) Initial recognition**

A financial asset or financial liability is measured initially at fair value plus transaction costs that are directly attributable to its acquisition or issue if the financial assets are not subsequently accounted for at fair value through profit or loss. For financial assets at FVTPL, directly attributable transaction costs are recognised in profit or loss as incurred.

**(iii) Subsequent measurement**

Subsequent to initial recognition, all financial assets and liabilities held for trading, derivatives recorded at fair value through profit or loss, financial assets and liabilities at fair value through profit or loss and available-for-sale assets are measured at fair value, except that any instrument that does not have a quoted market price in an active market and whose fair value cannot be reliably measured is carried at cost, including transaction costs, less impairment losses. Gains and losses arising from changes in the fair value of trading instruments and available-for-sale assets are recognised in profit or loss and directly in equity, respectively.

All non-trading financial liabilities, originated loans and receivables, and held-to-maturity assets are measured at amortised cost less impairment losses where applicable. Amortised cost is calculated on the effective interest rate method. Premiums and discounts, including initial transaction costs, are included in the carrying amount of the related instrument and amortised based on the effective interest rate of the instrument.

**Derecognition of financial assets and liabilities**

**(i) Financial assets**

The Group derecognises a financial assets when the contractual rights to the cash flows from the financial asset expire, or the Group has either transferred the contractual right to receive the cash flows from that asset, or has assumed an obligation to pay those cash flows to one or more recipients, subject to certain criteria, or if it transfers substantially all the risks and rewards of ownership.

The Group enters into transactions in which it transfers previously recognised financial assets but retains substantially all the associated risks and rewards of those assets. In transactions in which substantially all the risks and rewards of ownership of a financial asset are neither retained nor transferred, the Group derecognises the transferred asset if control over that asset (i.e. the practical ability to sell the transferred asset) is relinquished. The rights and obligations retained in the transfer are recognised separately as assets and liabilities, as appropriate. If control over the asset is retained, the Group continues to recognise the asset to the extent of its continuing involvement, which is determined by the extent to which it remains exposed to changes in the value of the financial asset transferred.

The derecognition criteria are also applied to the transfer of part of an asset, rather than the asset as a whole, or to a group of similar financial assets in their entirety, when applicable. If transferring a part of an asset, such part must be a specifically identified cash flow, a fully proportionate share of the asset, or a fully proportionate share of a specifically-identified cash flow.

**3 Significant accounting policies (continued)**

**Derecognition of financial assets and liabilities (continued)**

**(ii) *Financial liabilities***

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. If an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of the existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the consolidated statements of comprehensive income.

**Cash flow hedges**

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss. If the hedging derivative expires or is sold, terminated, or exercised, or the hedge no longer meets the criteria for cash flow hedge, or the hedge designation is revoked, then hedge accounting is discontinued prospectively. In a discontinued hedge of a forecast transaction, the cumulative amount recognised in other comprehensive income from the year when the hedge was effective is reclassified from equity to profit or loss as a reclassification adjustment when the forecast transaction occurs and affects profit or loss. If the forecast transaction is no longer expected to occur, then the balance in other comprehensive income is reclassified immediately to profit or loss as a reclassification adjustment.

**Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and unrestricted due from banks and other financial institutions with original maturities of less than three months, which are subject to insignificant risk of changes in fair value, and are used by the Group in the management of short-term commitments.

**3 Significant accounting policies (continued)**

69

**Property and equipment**

**(i) Recognition and subsequent measurement**

The initial cost of an item of property and equipment comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. After recognition as an asset, property and equipment whose fair value can be measured reliably are carried at a revalued amount, being its fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Expenditure incurred after property and equipment has been put into operation, such as repairs and maintenance and overhaul costs, are normally charged to income in the year in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditure is capitalised as an additional cost of property and equipment.

The Group revalues its property and equipment to ensure that the fair value of revalued assets does not differ materially from its carrying amount. Surpluses arising from revaluation are dealt with in the revaluation reserve in equity. Any deficit arising is offset against the revaluation reserve to the extent of a previous increase for the same asset. In all other cases, a decrease in carrying amount is charged to profit or loss as impairment.

**(ii) Depreciation**

Depreciation is charged to profit or loss on a straight-line basis over the estimated useful life of each item of property and equipment. The estimated useful lives of property and equipment are as follows:

● Buildings	40 years
● Office equipment and motor vehicles	10 years
● Computers	3-5 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted, if appropriate. The change is accounted for as changes in accounting estimates.

**Construction-in-progress**

Construction-in-progress represents the cost of construction of new buildings and premises, which have not been fully completed or installed. No depreciation is provided for construction-in-progress during the period of construction.

**3 Significant accounting policies (continued)**

**Intangible assets**

**(i) Acquired intangible assets**

Intangible assets that are acquired by the Group are stated at cost less accumulated amortisation and any impairment losses.

**(ii) Amortisation**

Amortisation is charged to the consolidated statements of comprehensive income on a straight-line basis over the estimated useful lives of intangible assets unless such lives are indefinite. The estimated useful life of intangible assets is as follows:

• Software	3 years
------------	---------

Amortisation methods and amortisation periods are reviewed at each reporting date and adjusted, if appropriate. The change is accounted for as changes in accounting estimates.

**Investment property**

Property held for the purpose of earning rentals or benefiting from capital appreciation is classified as investment property. Investment property is measured initially at its cost. Transaction costs are included in the initial measurement. Subsequently, investment property is measured at fair value and changes in fair value are recognised in profit or loss.

Due to the commencement of owner-occupation or of development with a view to sell, the deemed cost of investment property carried at fair value transferred to owner-occupied property or inventories is the investment property's fair value at the date of change in use.

If an owner-occupied property becomes an investment property that will be carried at fair value due to the cease of owner-occupation, the Group shall reevaluate it at the fair value at the date of change in use, and reclassify it to investment property.

**3 Significant accounting policies (continued)**

71

**Impairment**

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If such an indication exists, the asset's recoverable amount is estimated.

**(i) Loans and receivables**

Loans and receivables are presented net of allowances for uncollectability. Allowances are made against the carrying amount of loans and receivables that are identified as being potentially impaired, based on regular reviews of outstanding balances, to reduce these loans and receivables to their recoverable amount in accordance with BOM Provisioning Guidelines. Increases in the allowance account are recognised in profit or loss. When a loan is known to be uncollectible, all the necessary legal procedures have been completed and the final loss has been determined, the loan is written off directly.

In accordance with the BOM Provisioning Guidelines, the Group is required to determine the quality of loans and receivables based on their qualitative factor and time characteristics in classifying them and determining provisions. Such a model classifies the Group's loans and establishes allowances for loan losses at the rates of 1%, 5%, 25%, 50% and 100%, based on credit classification categories of performing, in arrears, substandard, doubtful and loss, respectively. On 26 August 2014, BOM Provisioning Guidelines were revised and require the Group to recognise 1% (previously 0% was applied) allowance for loan loss for performing loan originated on or after 27 August 2014. The Group does not recognise 1% allowance for the deposit collateralized loans and overnight loans.

Qualitative characteristics taken into consideration for determining credit classification include completeness of loan file, financial indicators of the borrower, value of the collateral and previous rescheduling of the loan, etc.

When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

**(ii) Available-for-sale financial assets**

When a decline in the fair value of an available-for-sale financial asset has been recognised in other comprehensive income and there is objective evidence that the asset is impaired, the cumulative loss that had been recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognised. Impairment losses recognised in profit or loss for an investment in an equity instrument classified as available-for-sale are not reversed through profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss is recognised in profit or loss, the impairment loss is reversed, with the amount of the reversal recognised in profit or loss. When a decline in the fair value of an available-for-sale financial asset has been recognised in other comprehensive income and there is objective evidence that the asset is impaired, the cumulative loss that had been recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognised. Impairment losses recognised in profit or loss for an investment in an equity instrument classified as available-for-sale are not reversed through profit or loss. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss is recognised in profit or loss, the impairment loss is reversed, with the amount of the reversal recognised in profit or loss. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

### 3 **Significant accounting policies (continued)**

#### **Impairment (continued)**

##### **(iii) Held-to-maturity financial assets**

An impairment loss in respect of held-to-maturity financial assets measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate and is recognised in profit or loss. Interest on the impaired asset continues to be recognised through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

##### **(iv) Assets other than financial instruments**

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the recoverable amount of the respective asset. The recoverable amount is the higher of the asset's or cash generating unit's fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs. An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment is recognised as loss of current operation in the consolidated statements of comprehensive income.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. All reversals of impairment are recognised as profit in the consolidated statements of comprehensive income.

#### **Repurchase agreements**

The Group enters into purchase (sale) of investments under agreements to resell (repurchase) substantially identical investments at a certain date in the future at a fixed price. Investments purchased subject to commitments to resell them at future dates are not recognised on the consolidated statements of financial position. The amounts paid are recognised in loans to either banks or customers. The receivables are shown as collateralised by the underlying security. Investments sold under repurchase agreements continue to be recognised in the consolidated statement of financial position and are measured in accordance with the accounting policy for either assets held for trading or available-for-sale as appropriate. The proceeds from the sale of the investments are reported as liabilities to either banks or customers. The difference between the sale and repurchase considerations is treated as interest income or expense and is accrued over the period of the agreement using the effective interest method.

73

**Share capital**

**(i) Ordinary shares**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares and share options are recognised as a deduction from equity, net of taxes.

**(ii) Treasury shares**

When share capital recognised as equity is repurchased, the amount of the consideration paid, which includes directly attributable costs, is net of any tax effects, and is recognised as a deduction from equity. Repurchased shares are classified as treasury shares and are presented as a deduction from total equity. When treasury shares are sold or reissued subsequently, the amount received is recognised as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to / from retained earnings.

**(iii) Non-controlling interests**

Non-controlling interests, which represent the equity in a subsidiary not attributable, directly or indirectly, to a parent's ownership interests, consist of the amount of those non-controlling interests at the date of the original combination calculated in accordance with IFRS 3, 'Business Combinations' and the non-controlling interests share of changes in equity since the date of the combination.

**Provisions**

A provision is recognised in the consolidated statements of financial position when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

**Segment reporting**

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are regularly reviewed by the Group's chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

### **3 Significant accounting policies (continued)**

#### **Revenue**

##### **(i) Interest income**

Interest income and expense is recognised in the consolidated statements of comprehensive income as it accrues, taking into account the effective yield of the asset or liability. Interest income and expense include the amortisation of any discount or premium or other differences between the carrying amount of an interest bearing instrument and its amount at maturity calculated on an effective interest rate basis except that the Group does not amortise loan originating costs and fees on an effective interest rate basis but rather recognises them in profit or loss as incurred.

##### **(ii) Fee and commission income**

Fee and commission income is charged to customers for the financial services provided. Fee and commission income is recognised when the corresponding service is provided.

##### **(iii) Rental income**

Rental income from leased property is recognised in the consolidated statements of comprehensive income on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income.

##### **(iv) Dividends**

Dividend income is recognised when the right to receive dividends is established.

#### **Operating lease payments**

Payments made under operating leases are recognised in the consolidated statements of comprehensive income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statements of comprehensive income as a deduction to the total rental expenses over the term of the lease.

#### **Income tax**

Income tax expense is comprised of current tax only.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using the tax rates enacted or substantially enacted at the reporting date and any adjustment to tax payable in respect of previous years.

The Ministry of Finance issued a regulation on deferred tax differences in May 2010. However, the Taxation Office of Mongolia has not implemented the regulation yet and deferred tax issues have not been incorporated in the Tax Methodology yet due to unfamiliarity of the deferred tax accounting among companies, including commercial banks, as well as the tax authorities. Substantial implementation efforts such as issuance of calculation methodologies, training and discussions with practitioners are required for smooth adoption. BOM is planning to issue guidelines for commercial banks on the accounting for deferred tax assets and liabilities and recognises that current accounting practices for deferred taxes by commercial banks do not comply with IFRS.

**3 Significant accounting policies (continued)**

75

**Income tax (continued)**

The Government of Mongolia continues to reform the business and commercial infrastructure in its transition to a market economy. As a result the laws and regulations affecting businesses continue to change rapidly. These changes are sometimes characterized by poor drafting, varying interpretations and inconsistent application by the tax authorities. In particular, taxes are subject to review and investigation by a number of authorities who are enabled by law to impose fines and penalties. While the Group believes it has provided adequately for all tax liabilities based on its understanding of the tax legislation and status at the period-end, the above facts may create tax risks for the Group which are not possible to quantify at this stage.

**Employee benefits**

The Group does not provide severance benefits to its employees except for providing the employer's portion in accordance with statutory social insurance payments to the State Social Insurance Scheme. Contributions made by the Group are recognised as an expense in the consolidated statements of comprehensive income as incurred.

**New standards and interpretations not yet adopted**

The following new standards, interpretations and amendments to existing standards have been published and are effective for annual periods beginning after January 1, 2016, and the Group has not early adopted them.

**(i) IFRS 9 Financial Instruments**

IFRS 9, published in December 2015, replaces the existing guidance in IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IFRS 9. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted.

Given the nature of the Group's operations, this standard is expected to have a pervasive impact on the Group's financial statements. The Group is assessing the potential impact on its consolidated financial statements resulting from the application of IFRS 9.

**(ii) Amendments to IFRS 11 Joint Arrangements**

The amendments require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business must apply the relevant IFRS 3 principles for business combinations accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. These amendments are effective for annual periods beginning on or after 1 January 2016.

These amendments are not expected to have significant impact on the consolidated financial statements.

**3 Significant accounting policies (continued)**

**New standards and interpretations not yet adopted (continued)**

**(iii) IFRS 15 Revenue from Contracts with Customers**

IFRS 15, published in January 2016, establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including IAS 18, Revenue, IAS 11, Construction Contracts and IFRIC 13, Customer Loyalty Programmes. IFRS 15 is effective for annual reporting periods beginning on or after January 1, 2018, with early adoption permitted.

The Group is assessing the potential impact on its consolidated financial statements resulting from the application of IFRS 15.

**(iv) Revised Accounting Guidelines by Bank of Mongolia and Ministry of Finance**

Bank of Mongolia and Ministry of Finance announced revised accounting guidelines for Mongolian Banks (the "Revised Accounting Guidelines") on 6 February 2015. The Revised Accounting Guidelines include more detailed and specific accounting treatments of assets, liabilities, equity, revenue and expense, and off-balance sheet items relating to banks. It includes accounting treatments for various types of financial instruments, option to estimate the loan loss impairment based on IAS 39 and related accounting treatment. In addition, it requires banks to apply deferred tax accounting for corporate income tax.

The Revised Accounting Guidelines are prospectively effective for annual reporting periods beginning on or after 1 January 2017. The Group is assessing the potential impact on its consolidated financial statements resulting from the application of the Revised Accounting Guidelines.

**Others**

Certain prior year amounts in the accompanying consolidated financial statements have been reclassified to conform to the current year's presentation. These reclassifications do not affect net asset or net profit of accompanying consolidated financial statements.

**4 Acquisition of Subsidiary**

77

**Business combination**

On 19 November 2013 the Group obtained control of TDB Media LLC ("TDBM"), a media company licensed by the Mongolia Telecommunication Regulatory Commission to operate Bloomberg TV Mongolia in Ulaanbaatar since 2011 by acquiring additional shares and voting interests in TDBM. As a result, the Group's equity interest in TDBM increased from 49% to approximately 84.4%.

Even though the Group took control of TDBM on 19 November 2013, the Group deemed the acquisition date as 31 December 2013 since there were no significant transactions between the acquisition date and the end of the reporting period. As a result, the Group did not include total comprehensive income of TDBM in the consolidated financial statements as at and for the year ended 31 December 2013.

In applying the equity method, the Group used the financial information of MGLL as at 31 December 2015. ## 39 Financial risk management

### (a) **Introduction and overview**

The Group has exposure to the following risks arising from financial instruments:

- Credit risks
- Liquidity risks
- Market risks

This note provides information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

#### *Risk management framework*

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board has established the Asset and Liability Committee ("ALCO") and Credit Committee, which are responsible for developing and monitoring the Group's risk management policies in their specified areas.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

The Group's Representative Governing Board ("RGB") is responsible for monitoring compliance with the Group's risk management policies and procedures, and for reviewing the adequacy of the risk management framework in relation to the risks faced by the Group. The RGB is assisted in these functions by Internal Audit. Internal Audit undertakes both regular and ad-hoc reviews of risk management controls and procedures, the results of which are reported to the RGB.

**(b) Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's loans and advances and investment securities.

*Management of credit risk*

The Board of Directors has delegated responsibility for the management of credit risk to its Credit Committee. Each branch is required to implement the Group's credit policies and procedures, with credit approval authorities delegated from the Group's Credit Committee. Each branch is responsible for the quality and performance of its credit portfolio and for monitoring and controlling all credit risks in its portfolios, including those subject to central approval.

Regular audits of branches and credit processes are undertaken by Internal Audit.

An analysis of the net amounts of loans and investment securities with respective allowances at the reporting date was shown below.

##### *Impaired loans and securities*

Impaired loans and securities are loans and securities for which objective evidence demonstrates that a loss event has occurred after the initial recognition of the assets and that the loss event has an impact on the future cash flows of the assets that can be estimated reliably.

Set out below is an analysis of the gross and net (after allowances for loan losses) amounts of delinquent or individually impaired assets by classifications.

(\*) The fair value of collateral represents the mitigation of credit risk due to collateral by each item. The fair value of collateral does not include mitigation of credit risk by other types of credit enhancement such as floating charge, guarantee from the third party and other tangible assets.

The Group holds collateral against loans and advances to customers in the form of mortgage interests over property, other registered securities over assets, and guarantees. Collateral generally is not held over loans and advances to banks except when securities are held as part of reverse repurchase and securities borrowing activities. Collateral usually is not held against investment securities, and no such collateral was held at 31 December 2015 or 2014.

The ultimate collectability of the loans is subject to a number of factors, including the successful performance of the debtors under various restructuring plans in place or in process of negotiation and their ability to perform on loan and debt obligations given the status of the Mongolian economy and the potential continuation of adverse trends or other unfavorable developments. Consequently, it is reasonably possible that adjustments could be made to the reserves for impaired loans and to the carrying amount of investments in the near term in amounts that may be material to the Group's consolidated financial statements.

#### **(b) Credit risk (continued)**

As stipulated in the Banking Law of Mongolia, the total value of loans, loan equivalent assets and guarantees provided to one person or group of related persons shall not exceed 20% of the total equity of the Group. The maximum value of loans, loan equivalent assets and guarantees provided to a shareholder, the chairman, a member of the Representative Governing Board, an executive director or a bank officer or any related person thereof shall not exceed 5% of the capital of the Group, and the total amount shall not exceed 20% of the capital of the Group respectively. The criteria for concentration of loan as at 31 December 2015 are as follows:

Description	Suitable ratios	31 December 2015	Violation
The loan and guarantee given to one borrower	<Eq 20%	17.2%	None
The loan and guarantee given to the single related party	<Eq 5%	2.4%	None
Total loans and guarantees given to the related parties	<Eq 20%	5.3%	None

#### **(c) Liquidity risk**

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations from its financial liabilities. The Group's approach for managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group is exposed to frequent calls on its available cash resources from current deposits, maturing deposits and loan drawdowns. The Group's ALCO sets limits on the minimum proportion of maturing funds available to cover such cash outflows and on the minimum level of interbank and other borrowing facilities that should be in place to cover withdrawals at unexpected levels of demand.

##### *Exposure to liquidity risk*

The key measure used by the Group for managing liquidity risk is the ratio of liquid assets to total liabilities, which is in line with the liquidity ratio described in Banking Law of Mongolia.

For this purpose the Group maintained a liquidity ratio; calculated as a ratio of the Group's liquid assets, including cash on hand, deposits and placements with banks and other financial institutions, balances with BOM and investment securities to the Group's liquid liabilities; including deposit from customers, deposits and placements from the Groups and other financial institutions, loans from foreign financial institutions, taxation and debt securities issued.

Details of the reported ratio at the reporting date were as follows:

**(d) Market risks**

Market risk is the risk that changes in market prices, such as interest rate and foreign exchange rates will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

***Management of market risks***

The Group is exposed to the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Interest rate risk is measured by the extent to which changes in market interest rates impact margins and net income. To the extent the term structure of interest bearing assets differs from that of liabilities, net of interest income will increase or decrease as a result of movements in interest rates.

Interest rate risk is managed by increasing or decreasing positions within limits specified by the Group's management. These limits restrict the potential effect of movements in interest rates on interest margin and on the value of interest sensitive assets and liabilities.

Overall authority for market risk is vested with the ALCO.

***Exposure to interest rate risks***

The principal risk to which the Group's financial assets and liabilities are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instrument because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for repricing bands. A summary of the Group's interest rate gap position on its financial assets and liabilities are as follows:

The management of interest rate risk against interest rate gap limits is supplemented by monitoring the sensitivity of the Group's financial assets and liabilities to various standard and non-standard interest rate scenarios. **Exposure to foreign exchange rate risks**

The Group is exposed to effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The Group's management sets limits on the level of exposure by currencies (primarily USD) and in total. These limits also comply with the minimum requirements set by BOM.

**(e) Capital Management**

BOM sets and monitors capital requirements for the Group as a whole.

The Bank of Mongolia requires the Group to maintain a minimum capital adequacy ratio of 14.0% at 31 December 2015 and 2014, complied on the basis of total capital and total assets as adjusted for their risk ("CAR"), and a minimum of 9.0% at 31 December 2015 and 2014, complied on the basis of total tier 1 capital and total assets as adjusted for their risk ("TCAR").

Various limits are applied to elements of the capital base. The qualifying tier 2 capital cannot exceed tier 1 capital; and qualifying term subordinated borrowings capital may not exceed 50 percent of tier 1 capital.

Risk-weighted assets are determined according to specified requirements that seek to reflect the varying levels of risk attached to assets and off-balance sheet exposures.

The Group's policy is to maintain a strong capital base so as to maintain investors, creditors and market confidence and to sustain future development of the business. The impact of the level of capital on shareholders' return is also recognised and the Group recognises the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position.

The Group has complied with all externally imposed capital requirements throughout the period. There have been no material changes in the Group's management of capital during the year.

On 1 April 2015, the Governor of the Bank of Mongolia announced Order A-58, which requires the Group to increase its share capital to MNT 50 billion by 31 December 2015 and not to pay dividends by 31 December 2017.

The suitable ratios of the Group's capital adequacy as at 31 December 2015 and 2014, respectively, were as following:

## 40 **Fair values of financial assets and liabilities**

### **Determination of fair value and fair value hierarchy**

The Group follows the following hierarchy for determining and disclosing the fair value of financial instruments based on the level of significant inputs used in measurement.

Level 1: Fair value is based on quoted prices in active markets for identical assets or liabilities

Level 2: The inputs used for fair value measurement are market observable inputs, either directly or indirectly.

Level 3: Valuation techniques are used to estimate fair value of which significant inputs are not based on observable market data.

### **Fair value of financial assets and liabilities not carried at fair value**

The Group determines fair values for those financial instruments which are not carried at fair value in the consolidated financial statements as follows:

#### **(i) *Financial assets and liabilities for which fair value approximates carrying amount***

For financial assets and financial liabilities that are liquid or having short term maturity of less than one year, it is assumed that the carrying amounts approximate to their respective fair value. This assumption is also applicable to demand deposits, time deposits and variable rate financial instruments, which is principally due to the fact that the current market rates offered for similar deposit products do not differ significantly from market rates at inception.

#### **(ii) *Fixed rate financial instruments***

The fair value of fixed rate financial assets and liabilities carried at amortised cost basis are estimated by comparing market interest rates when they were first recognised with the current market rates offered for the similar financial instruments available in Mongolia. For quoted debt issued, the fair values are measured based on quoted market prices and in case where observable market inputs are not available, a discounted cash flow model is employed.

**Financial guarantees and letters of credit**

At any time the Group has outstanding commitments to extend credit, these commitments take the form of undrawn portions of approved loans, credit card limits and overdraft facilities.

The Group provides financial guarantees and letters of credit to guarantee the performance of customers third parties. These agreements have fixed limits and generally extend for a period of less than one year. The Group also provides guarantees by acting as settlement agent in securities borrowing and lending transactions. The contractual amounts of commitments and contingent liabilities are set out in the following table by category.

The amounts reflected in the table for guarantees and letters of credit represent the maximum exposure to credit risk would be recognised at the reporting date if counterparties failed completely to perform as contracted.

As at 31 December
